

**AMENDMENT IN THE NATURE OF A SUBSTITUTE  
TO THE COMMITTEE PRINT  
OFFERED BY MR. ROGERS OF ALABAMA**

Strike all and insert the following:

**TITLE II—COMMITTEE ON  
ARMED SERVICES**

**SEC. 20001 [log 10028]. ENHANCEMENT OF DEPARTMENT OF  
DEFENSE RESOURCES FOR IMPROVING THE  
QUALITY OF LIFE FOR MILITARY PER-  
SONNEL.**

(a) APPROPRIATIONS.—In addition to amounts otherwise available, there are appropriated to the Secretary of Defense for fiscal year 2025, out of any money in the Treasury not otherwise appropriated, to remain available until September 30, 2029—

(1) \$230,480,000 for restoration and modernization costs under the Marine Corps Barracks 2030 initiative;

(2) \$119,000,000 for base operating support costs under the Marine Corps Barracks 2030 initiative;

1           (3) \$1,000,000,000 for Army, Navy, Air Force,  
2           and Space Force sustainment, restoration, and mod-  
3           ernizations of military unaccompanied housing;

4           (4) \$2,000,000,000 for the Defense Health  
5           Program;

6           (5) \$2,900,000,000 to supplement the basic al-  
7           lowance for housing payable to members of the  
8           Armed Forces, notwithstanding section 403 of title  
9           37, United States Code;

10          (6) \$50,000,000 for bonuses, special pays, and  
11          incentive pays for members of the Armed Forces  
12          pursuant to titles 10 and 37, United States Code;

13          (7) \$10,000,000 for the Defense Activity for  
14          Non-Traditional Education Support's Online Aca-  
15          demic Skills Course program for members of the  
16          Armed Forces;

17          (8) \$100,000,000 for tuition assistance for  
18          members of the Armed Forces pursuant to title 10,  
19          United States Code;

20          (9) \$100,000,000 for child care fee assistance  
21          for members of the Armed Forces under part II of  
22          chapter 88 of title 10, United States Code;

23          (10) \$590,000,000 to increase the Temporary  
24          Lodging Expense Allowance under chapter 8 of title  
25          37, United States Code, to 21 days;

1           (11) \$100,000,000 for Department of Defense  
2       Impact Aid payments to local educational agencies  
3       under section 2008 of title 10, United States Code;

4           (12) \$10,000,000 for military spouse profes-  
5       sional licensure under section 1784 of title 10,  
6       United States Code;

7           (13) \$6,000,000 for Armed Forces Retirement  
8       Home facilities; and

9           (14) \$100,000,000 for the Defense Community  
10      Infrastructure Program.

11      (b) TEMPORARY INCREASE IN PERCENTAGE OF  
12      VALUE OF AUTHORIZED INVESTMENT IN CERTAIN  
13      PRIVATIZED MILITARY HOUSING PROJECTS.—

14           (1) IN GENERAL.—During the period beginning  
15      on the date of the enactment of this section and  
16      ending on September 30, 2029, the Secretary con-  
17      cerned shall apply—

18           (A) paragraph (1) of subsection (c) of sec-  
19      tion 2875 of title 10, United States Code, by  
20      substituting “60 percent” for “33 1/3 per-  
21      cent”; and

22           (B) paragraph (2) of such subsection by  
23      substituting “60 percent” for “45 percent”.

24           (2) SECRETARY CONCERNED DEFINED.—In this  
25      subsection, the term “Secretary concerned” has the

1 meaning given such term in section 101 of title 10,  
2 United States Code.

3 (c) TEMPORARY AUTHORITY FOR ACQUISITION OR  
4 CONSTRUCTION OF PRIVATIZED MILITARY UNACCOM-  
5 PANIED HOUSING.—Section 2881a of title 10, United  
6 States Code, is amended—

7 (1) by striking the heading and inserting  
8 **“Temporary authority for acquisition or**  
9 **construction of privatized military unac-**  
10 **companied housing”**;

11 (2) by striking “Secretary of the Navy” each  
12 place it appears and inserting “Secretary con-  
13 cerned”;

14 (3) by striking “under the pilot projects” each  
15 place it appears and inserting “pursuant to this sec-  
16 tion”;

17 (4) in subsection (a)—

18 (A) by striking the heading and inserting  
19 **“IN GENERAL”**; and

20 (B) by striking “carry out not more than  
21 three pilot projects under the authority of this  
22 section or another provision of this subchapter  
23 to use the private sector” and inserting “use  
24 the authority under this subchapter to enter

1           into contracts with appropriate private sector  
2           entities”;

3           (5) in subsection (c), by striking “privatized  
4           housing” and inserting “privatized housing units”;

5           (6) by redesignating subsection (f) as sub-  
6           section (e); and

7           (7) in subsection (e) (as so redesignated)—

8                 (A) by striking “under the pilot programs”  
9                 and inserting “under this section”; and

10                (B) by striking “September 30, 2009” and  
11                inserting “September 30, 2029”.

1   **SEC. 20002 [Log 10019]. ENHANCEMENT OF DEPARTMENT OF**  
2                   **DEFENSE RESOURCES FOR SHIPBUILDING.**

3           In addition to amounts otherwise available, there are  
4   appropriated to the Secretary of Defense for fiscal year  
5   2025, out of any money in the Treasury not otherwise ap-  
6   propriated, to remain available until September 30,  
7   2029—

8           (1) \$250,000,000 for the expansion of acceler-  
9   ated Training in Defense Manufacturing program;

10          (2) \$250,000,000 for United States production  
11   of turbine generators for shipbuilding industrial  
12   base;

13          (3) \$450,000,000 for United States additive  
14   manufacturing for wire production and machining  
15   capacity for shipbuilding industrial base;

16          (4) \$492,000,000 for next-generation ship-  
17   building techniques;

18          (5) \$85,000,000 for United States-made steel  
19   plate for shipbuilding industrial base;

20          (6) \$50,000,000 for machining capacity for  
21   naval propellers for shipbuilding industrial base;

22          (7) \$110,000,000 for rolled steel and fabrica-  
23   tion facility for shipbuilding industrial base;

24          (8) \$400,000,000 for expansion of collaborative  
25   campus for naval shipbuilding;

1           (9) \$450,000,000 for application of autonomy  
2           and artificial intelligence to naval shipbuilding;

3           (10) \$500,000,000 for the adoption of advanced  
4           manufacturing techniques in the maritime industrial  
5           base;

6           (11) \$500,000,000 for additional dry-dock ca-  
7           pability;

8           (12) \$50,000,000 for the expansion of cold  
9           spray repair technologies;

10          (13) \$450,000,000 for additional maritime in-  
11          dustrial workforce development programs;

12          (14) \$750,000,000 for additional supplier devel-  
13          opment across the naval shipbuilding industrial base;

14          (15) \$250,000,000 for additional advanced  
15          manufacturing processes across the naval ship-  
16          building industrial base;

17          (16) \$4,600,000,000 for a second Virginia-class  
18          submarine in fiscal year 2027;

19          (17) \$5,400,000,000 for two additional Guided  
20          Missile Destroyer (DDG) ships;

21          (18) \$160,000,000 for advanced procurement  
22          for Landing Ship Medium;

23          (19) \$1,803,941,000 for procurement of Land-  
24          ing Ship Medium;

1           (20) \$295,000,000 for development of a second  
2       Landing Craft Utility shipyard and production of  
3       additional Landing Craft Utility;

4           (21) \$100,000,000 for the procurement of com-  
5       mercial logistics ships;

6           (22) \$600,000,000 for the lease or purchase of  
7       new ships through the National Defense Sealift  
8       Fund;

9           (23) \$2,725,000,000 for the procurement of T-  
10      AO oilers;

11          (24) \$500,000,000 for cost-to-complete for res-  
12      cue and salvage ships;

13          (25) \$300,000,000 for production of ship-to-  
14      shore connectors;

15          (26) \$695,000,000 for the implementation of a  
16      multi-ship amphibious warship contract;

17          (27) \$80,000,000 for accelerated development  
18      of vertical launch system reloading at sea;

19          (28) \$250,000,000 for expansion of Navy corro-  
20      sion control programs;

21          (29) \$159,000,000 for leasing of ships for Ma-  
22      rine Corps operations;

23          (30) \$1,534,000,000 for expansion of small un-  
24      manned surface vessel production;

1           (31) \$1,800,000,000 for expansion of medium  
2       unmanned surface vessel production;

3           (32) \$1,300,000,000 for expansion of un-  
4       manned underwater vehicle production;

5           (33) \$188,360,000 for the development and  
6       testing of maritime robotic autonomous systems and  
7       enabling technologies;

8           (34) \$174,000,000 for the development of a  
9       Test Resource Management Center robotic autono-  
10      mous systems proving ground;

11          (35) \$250,000,000 for the development, produc-  
12      tion, and integration of wave-powered unmanned un-  
13      derwater vehicles;

14          (36) \$2,100,000,000 for San Antonio-class Am-  
15      phibious Transport Dock (LPD); and

16          (37) \$3,700,000,000 for America-class Amphib-  
17      ious Assault Ship (LHA).

1 **SEC. 20003 [10020]. ENHANCEMENT OF DEPARTMENT OF**  
2 **DEFENSE RESOURCES FOR INTEGRATED AIR**  
3 **AND MISSILE DEFENSE.**

4 (a) NEXT GENERATION MISSILE DEFENSE TECH-  
5 NOLOGIES.—In addition to amounts otherwise available,  
6 there are appropriated to the Secretary of Defense for fis-  
7 cal year 2025, out of any money in the Treasury not other-  
8 wise appropriated, to remain available until September 30,  
9 2029—

10 (1) \$183,000,000 for Missile Defense Agency  
11 special programs;

12 (2) \$250,000,000 for development and testing  
13 of directed energy capabilities by the Under Sec-  
14 retary for Research and Engineering;

15 (3) \$300,000,000 for classified military space  
16 superiority programs run by the Strategic Capabili-  
17 ties Office;

18 (4) \$500,000,000 for national security space  
19 launch infrastructure;

20 (5) \$2,000,000,000 for air moving target indi-  
21 cator military satellites;

22 (6) \$400,000,000 for expansion of Multi-Serv-  
23 ice Advanced Capability Hypersonic Test Bed pro-  
24 gram;

25 (7) \$5,600,000,000 for development of space-  
26 based and boost phase intercept capabilities;

1 (8) \$2,400,000,000 for the development of mili-  
2 tary non-kinetic missile defense effects; and

3 (9) \$7,200,000,000 for the development, pro-  
4 curement, and integration of military space-based  
5 sensors.

6 (b) LAYERED HOMELAND DEFENSE.—In addition to  
7 amounts otherwise available, there are appropriated to the  
8 Secretary of Defense for fiscal year 2025, out of any  
9 money in the Treasury not otherwise appropriated, to re-  
10 main available until September 30, 2029—

11 (1) \$2,200,000,000 for acceleration of  
12 hypersonic defense systems;

13 (2) \$800,000,000 for accelerated development  
14 and deployment of next-generation intercontinental  
15 ballistic missile defense systems;

16 (3) \$408,000,000 for Army space and strategic  
17 missile test range infrastructure restoration and  
18 modernization in the United States Indo-Pacific  
19 Command area of operations west of the inter-  
20 national dateline;

21 (4) \$1,975,000,000 for improved ground-based  
22 missile defense radars; and

23 (5) \$530,000,000 for the design and construc-  
24 tion of Missile Defense Agency missile instrumenta-  
25 tion range safety ship.

1   **SEC. 20004 [Log 10021]. ENHANCEMENT OF DEPARTMENT OF**  
2                   **DEFENSE RESOURCES FOR MUNITIONS AND**  
3                   **DEFENSE SUPPLY CHAIN RESILIENCY.**

4       (a) APPROPRIATIONS.—In addition to amounts other-  
5 wise available, there are appropriated to the Secretary of  
6 Defense for fiscal year 2025, out of any money in the  
7 Treasury not otherwise appropriated, to remain available  
8 until September 30, 2029—

9           (1) \$400,000,000 for the development, produc-  
10 tion, and integration of Navy and Air Force long-  
11 range anti-ship missiles;

12          (2) \$380,000,000 for production capacity ex-  
13 pansion for Navy and Air Force long-range anti-ship  
14 missiles;

15          (3) \$490,000,000 for the development, produc-  
16 tion, and integration of Navy and Air Force long-  
17 range air-to-surface missiles;

18          (4) \$94,000,000 for the development, produc-  
19 tion, and integration of alternative Navy and Air  
20 Force long-range air-to-surface missiles;

21          (5) \$630,000,000 for the development, produc-  
22 tion, and integration of long-range Navy air defense  
23 and anti-ship missiles;

24          (6) \$688,000,000 for the development, produc-  
25 tion, and integration of long-range multi-service  
26 cruise missiles;

1           (7) \$250,000,000 for production capacity ex-  
2           pansion and supplier base strengthening of long-  
3           range multi-service cruise missiles;

4           (8) \$70,000,000 for the development, produc-  
5           tion, and integration of short-range Navy and Ma-  
6           rine Corps anti-ship missiles;

7           (9) \$100,000,000 for the development of an  
8           anti-ship seeker for short-range Army ballistic mis-  
9           siles;

10          (10) \$175,000,000 for production capacity ex-  
11          pansion for next-generation Army medium-range  
12          ballistic missiles;

13          (11) \$50,000,000 for the mitigation of dimin-  
14          ishing manufacturing sources for medium-range air-  
15          to-air missiles;

16          (12) \$250,000,000 for the procurement of me-  
17          dium-range air-to-air missiles;

18          (13) \$225,000,000 for the expansion of produc-  
19          tion capacity for medium-range air-to-air missiles;

20          (14) \$50,000,000 for the development of second  
21          sources for components of short-range air-to-air mis-  
22          siles;

23          (15) \$325,000,000 for production capacity im-  
24          provements for air-launched anti-radiation missiles;

1           (16) \$50,000,000 for the accelerated develop-  
2           ment of Army next-generation medium-range anti-  
3           ship ballistic missiles;

4           (17) \$114,000,000 for the production of Army  
5           next-generation medium-range ballistic missiles;

6           (18) \$300,000,000 for the production of Army  
7           medium-range ballistic missiles;

8           (19) \$85,000,000 for the accelerated develop-  
9           ment of Army long-range ballistic missiles;

10          (20) \$400,000,000 for the production of heavy-  
11          weight torpedoes;

12          (21) \$200,000,000 for the development, pro-  
13          curement, and integration of commercial heavy-  
14          weight torpedoes;

15          (22) \$70,000,000 for the improvement of  
16          heavyweight torpedo maintenance activities;

17          (23) \$200,000,000 for the production of light-  
18          weight torpedoes;

19          (24) \$500,000,000 for the development, pro-  
20          curement, and integration of maritime mines;

21          (25) \$50,000,000 for the development, procure-  
22          ment, and integration of new underwater explosives;

23          (26) \$55,000,000 for the development, procure-  
24          ment, and integration of lightweight multi-mission  
25          torpedoes;

1           (27) \$80,000,000 for the production of  
2       sonobuoys;

3           (28) \$150,000,000 for the development, pro-  
4       curement, and integration of air-delivered long-range  
5       maritime mines;

6           (29) \$61,000,000 for the acceleration of Navy  
7       expeditionary loitering munitions deployment;

8           (30) \$50,000,000 for the acceleration of one-  
9       way attack unmanned aerial systems with advanced  
10      autonomy;

11          (31) \$1,000,000,000 for the expansion of the  
12      one-way attack unmanned aerial systems industrial  
13      base;

14          (32) \$3,500,000,000 for grants made pursuant  
15      to the Industrial Base Fund established under sec-  
16      tion 4817 of title 10, United States Code;

17          (33) \$1,000,000,000 for grants and purchase  
18      commitments made pursuant to the Industrial Base  
19      Fund established under section 4817 of title 10,  
20      United States Code;

21          (34) \$200,000,000 for investments in solid  
22      rocket motor industrial base through the Industrial  
23      Base Fund established under section 4817 of title  
24      10, United States Code;

1           (35) \$400,000,000 for investments in the  
2           emerging solid rocket motor industrial base through  
3           the Industrial Base Fund established under section  
4           4817 of title 10, United States Code;

5           (36) \$42,000,000 for investments in second  
6           sources for large-diameter solid rocket motors for  
7           hypersonic missiles;

8           (37) \$1,000,000,000 for the creation of next-  
9           generation automated munitions production fac-  
10          tories;

11          (38) \$170,000,000 for the development of ad-  
12          vanced radar depot for repair, testing, and produc-  
13          tion of radar and electronic warfare systems;

14          (39) \$25,000,000 for the expansion of the De-  
15          partment of Defense industrial base policy analysis  
16          workforce;

17          (40) \$30,300,000 for the repair of Army mis-  
18          siles;

19          (41) \$100,000,000 for the production of small  
20          and medium ammunition;

21          (42) \$2,500,000,000 for additional activities to  
22          improve the United States production of critical  
23          minerals through the National Defense Stockpile,  
24          authorized by subchapter III of chapter 5 of title 50,  
25          United States Code;

1           (43) \$10,000,000 for the expansion of the De-  
2       partment of Defense armaments cooperation work-  
3       force;

4           (44) \$250,000,000 for the expansion of the De-  
5       fense Exportability Features program;

6           (45) \$250,000,000 for the development of new  
7       armaments cooperation programs;

8           (46) \$350,000,000 for production of Navy long-  
9       range air and missile defense interceptors;

10          (47) \$93,000,000 for replacement of Navy long-  
11       range air and missile defense interceptors;

12          (48) \$100,000,000 for development of a second  
13       solid rocket motor source for Navy air defense and  
14       anti ship missiles;

15          (49) \$65,000,000 for expansion of production  
16       capacity of Missile Defense Agency long-range anti-  
17       ballistic missiles;

18          (50) \$225,000,000 for expansion of production  
19       capacity for Navy air defense and anti-ship missiles;

20          (51) \$103,300,000 for expansion of depot level  
21       maintenance facility for Navy long-range air and  
22       missile defense interceptors;

23          (52) \$18,000,000 for creation of domestic  
24       source for guidance section of Navy short-range air  
25       defense missiles;

1           (53) \$65,000,000 for integration of Army me-  
2       dium-range air and missile defense interceptor with  
3       Navy ships;

4           (54) \$176,100,000 for production of Army  
5       long-range movable missile defense radar;

6           (55) \$100,000,000 for accelerated fielding of  
7       Army short-range gun-based air and missile defense  
8       system;

9           (56) \$40,000,000 for development of low-cost  
10      alternatives to air and missile defense interceptors;

11          (57) \$50,000,000 for acceleration of Army  
12      next-generation shoulder-fired air defense system;

13          (58) \$91,000,000 for production of Army next-  
14      generation shoulder-fired air defense system;

15          (59) \$500,000,000 for development, production,  
16      and integration of counter-unmanned aerial systems  
17      programs;

18          (60) \$350,000,000 for development, production,  
19      and integration of non-kinetic counter-unmanned  
20      aerial systems programs;

21          (61) \$250,000,000 for development, production,  
22      and integration of land-based counter-unmanned  
23      aerial systems programs;

1           (62) \$200,000,000 for development, production,  
2           and integration of ship-based counter-unmanned aer-  
3           ial systems programs; and

4           (63) \$400,000,000 for acceleration of  
5           hypersonic strike programs.

6           (b) APPROPRIATIONS.—In addition to amounts other-  
7           wise available, there is appropriated to the Secretary of  
8           Defense, out of any money in the Treasury not otherwise  
9           appropriated, to remain available until September 30,  
10          2029, \$500,000,000 to the “Department of Defense Cred-  
11          it Program Account” to carry out the capital assistance  
12          program, including loans, loan guarantees, and technical  
13          assistance, established under section 149(e) of title 10,  
14          United States Code, for the development of reliable  
15          sources of critical minerals: *Provided, That*—

16                (1) such amounts are available to subsidize  
17                gross obligations for the principal amount of direct  
18                loans, and total loan principal, any part of which is  
19                to be guaranteed, not to exceed \$100,000,000,000;  
20                and

21                (2) such amounts are available to cover all costs  
22                and expenditures as provided under section  
23                149(e)(5)(B) of title 10, United States Code.

1   **SEC. 20005 [Log 10022]. ENHANCEMENT OF DEPARTMENT OF**  
2                   **DEFENSE RESOURCES FOR SCALING LOW-**  
3                   **COST WEAPONS INTO PRODUCTION.**

4           (a) APPROPRIATIONS.—In addition to amounts other-  
5 wise available, there are appropriated to the Secretary of  
6 Defense for fiscal year 2025, out of any money in the  
7 Treasury not otherwise appropriated, to remain available  
8 until September 30, 2029—

9           (1) \$25,000,000 for the Office of Strategic  
10          Capital Global Technology Scout program;

11          (2) \$1,100,000,000 for the expansion of the  
12          small unmanned aerial system industrial base;

13          (3) \$400,000,000 for the development and de-  
14          ployment of the Joint Fires Network and associated  
15          joint battle management capabilities;

16          (4) \$400,000,000 for the expansion of advanced  
17          command-and-control tools to combatant commands  
18          and military departments;

19          (5) \$100,000,000 for the development of shared  
20          secure facilities for the defense industrial base;

21          (6) \$50,000,000 for the creation of additional  
22          Defense Innovation Unit OnRamp Hubs;

23          (7) \$250,000,000 for the acceleration of Stra-  
24          tegic Capabilities Office programs;

1           (8) \$650,000,000 for the expansion of Mission  
2           Capabilities office joint prototyping and experimen-  
3           tation activities for military innovation;

4           (9) \$500,000,000 for the accelerated develop-  
5           ment and integration of advanced 5G/6G tech-  
6           nologies for military use;

7           (10) \$25,000,000 for testing of simultaneous  
8           transmit and receive technology for military spec-  
9           trum agility;

10          (11) \$50,000,000 for the development, procure-  
11          ment, and integration of high-altitude stratospheric  
12          balloons for military use;

13          (12) \$120,000,000 for the development, pro-  
14          curement, and integration of long-endurance un-  
15          manned aerial systems for surveillance;

16          (13) \$40,000,000 for the development, procure-  
17          ment, and integration of alternative positioning and  
18          navigation technology to enable military operations  
19          in contested electromagnetic environments;

20          (14) \$750,000,000 for the acceleration of inno-  
21          vative military logistics and energy capability devel-  
22          opment and deployment;

23          (15) \$120,000,000 for the acceleration of devel-  
24          opment of small modular nuclear reactors for mili-  
25          tary use;

1           (16) \$1,000,000,000 for the expansion of pro-  
2       grams to accelerate the procurement and fielding of  
3       innovative technologies;

4           (17) \$90,000,000 for the development of reus-  
5       able hypersonic technology for military strikes and  
6       intelligence;

7           (18) \$2,000,000,000 for the expansion of De-  
8       fense Innovation Unit scaling of commercial tech-  
9       nology for military use;

10          (19) \$500,000,000 to prevent delays in delivery  
11       of attritable autonomous military capabilities;

12          (20) \$1,000,000,000 for the development, pro-  
13       curement, and integration of low-cost cruise missiles;

14          (21) \$500,000,000 for the development, pro-  
15       curement, and integration of exportable low-cost  
16       cruise missiles;

17          (22) \$124,000,000 for improvements to Test  
18       Resource Management Center artificial intelligence  
19       capabilities;

20          (23) \$145,000,000 for the development of arti-  
21       ficial intelligence to enable one-way attack un-  
22       manned aerial systems and naval systems;

23          (24) \$250,000,000 for the development of the  
24       Test Resource Management Center digital test envi-  
25       ronment;

1           (25) \$250,000,000 for the advancement of the  
2       artificial intelligence ecosystem;

3           (26) \$250,000,000 for the expansion of Cyber  
4       Command artificial intelligence lines of effort;

5           (27) \$250,000,000 for the acceleration of the  
6       Quantum Benchmarking Initiative;

7           (28) \$500,000,000 for the expansion and accel-  
8       eration of qualification activities and technical data  
9       management to enhance competition in defense in-  
10      dustrial base;

11          (29) \$400,000,000 for the expansion of the de-  
12      fense manufacturing technology program; and

13          (30) \$685,000,000 for military cryptographic  
14      modernization activities.

15      (b) APPROPRIATIONS.—In addition to amounts other-  
16   wise available, there are appropriated to the Secretary of  
17   Defense, out of any money in the Treasury not otherwise  
18   appropriated, to remain available until September 30,  
19   2029, \$1,000,000,000 to the “Department of Defense  
20   Credit Program Account” to carry out the capital assist-  
21   ance program, including loans, loan guarantees, and tech-  
22   nical assistance, established under section 149(e) of title  
23   10, United States Code: *Provided*, That—

24          (1) such amounts are available to subsidize  
25      gross obligations for the principal amount of direct

1       loans, and total loan principal, any part of which is  
2       to be guaranteed, not to exceed \$100,000,000,000;  
3       and  
4       (2) such amounts are available to cover all costs  
5       and expenditures as provided under section  
6       149(e)(5)(B) of title 10, United States Code.

1   **SEC. 20006 [Log 10023]. ENHANCEMENT OF DEPARTMENT**  
2                   **OF DEFENSE RESOURCES FOR IMPROVING**  
3                   **THE EFFICIENCY AND CYBERSECURITY OF**  
4                   **THE DEPARTMENT OF DEFENSE.**

5       In addition to amounts otherwise available, there are  
6 appropriated to the Secretary of Defense for fiscal year  
7 2025, out of any money in the Treasury not otherwise ap-  
8 propriated, to remain available until September 30,  
9 2029—

10           (1) \$150,000,000 for business systems replace-  
11 ment to accelerate the audits of the financial state-  
12 ments of the Department of Defense pursuant to  
13 chapter 9A and section 2222 of title 10, United  
14 States Code;

15           (2) \$200,000,000 for the deployment of auto-  
16 mation and artificial intelligence to accelerate the  
17 audits of the financial statements of the Department  
18 of Defense pursuant to chapter 9A and section 2222  
19 of title 10, United States Code;

20           (3) \$10,000,000 for the improvement of the  
21 budgetary and programmatic infrastructure of the  
22 Office of the Secretary of Defense; and

23           (4) \$20,000,000 for defense cybersecurity pro-  
24 grams of the Defense Advanced Research Projects  
25 Agency.

1 **SEC. 20007 [Log 10024]. ENHANCEMENT OF DEPARTMENT**  
2 **OF DEFENSE RESOURCES FOR AIR SUPERI-**  
3 **ORITY.**

4 In addition to amounts otherwise available, there are  
5 appropriated to the Secretary of Defense for fiscal year  
6 2025, out of any money in the Treasury not otherwise ap-  
7 propriated, to remain available until September 30,  
8 2029—

9 (1) \$3,150,000,000 to increase F-15EX air-  
10 craft production;

11 (2) \$361,220,000 to prevent the retirement of  
12 F-22 aircraft;

13 (3) \$127,460,000 to prevent the retirement of  
14 F-15E aircraft;

15 (4) \$50,000,000 to accelerate installation of F-  
16 16 electronic warfare capability;

17 (5) \$116,000,000 for C-17A Mobility Aircraft  
18 Connectivity;

19 (6) \$84,000,000 for KC-135 Mobility Aircraft  
20 Connectivity;

21 (7) \$440,000,000 to increase C-130J produc-  
22 tion;

23 (8) \$474,000,000 to increase EA-37B produc-  
24 tion;

25 (9) \$300,000,000 for Air Force classified pro-  
26 grams;

1           (10) \$678,000,000 to accelerate the Collabo-  
2       rative Combat Aircraft program;

3           (11) \$400,000,000 to accelerate production of  
4       the F-47 aircraft;

5           (12) \$230,000,000 for Navy classified pro-  
6       grams;

7           (13) \$500,000,000 accelerate the FA/XX air-  
8       craft;

9           (14) \$100,000,000 for production of Advanced  
10      Aerial Sensors;

11          (15) \$160,000,000 to accelerate V-22 nacelle  
12      improvement; and

13          (16) \$100,000,000 to accelerate production of  
14      MQ-25 aircraft.

1   **SEC. 20008 [Log 10025]. ENHANCEMENT OF RESOURCES FOR**  
2                   **NUCLEAR FORCES.**

3           (a) DOD APPROPRIATIONS.—In addition to amounts  
4 otherwise available, there are appropriated to the Sec-  
5 retary of Defense for fiscal year 2025, out of any money  
6 in the Treasury not otherwise appropriated, to remain  
7 available until September 30, 2029—

8           (1) \$1,500,000,000 for risk reduction activities  
9           for the Sentinel intercontinental ballistic missile pro-  
10          gram;

11          (2) \$4,500,000,000 for acceleration of the B–  
12          21 long-range bomber aircraft;

13          (3) \$500,000,000 for improvements to the Min-  
14          uteman III intercontinental ballistic missile system;

15          (4) \$100,000,000 for capability enhancements  
16          to intercontinental ballistic missile reentry vehicles;

17          (5) \$148,000,000 for the expansion of D5 mis-  
18          sile motor production;

19          (6) \$400,000,000 to accelerate the development  
20          of Trident D5LE2 submarine-launched ballistic mis-  
21          siles;

22          (7) \$2,000,000,000 to accelerate the develop-  
23          ment, procurement, and integration of the nuclear-  
24          armed sea-launched cruise missile;

25          (8) \$62,000,000 to convert Ohio-class sub-  
26          marine tubes to accept additional missiles;

1           (9) \$22,000,000 to enhance nuclear deterrence  
2           through classified programs;

3           (10) \$168,000,000 to accelerate the production  
4           of the Survivable Airborne Operations Center pro-  
5           gram;

6           (11) \$65,000,000 to accelerate the moderniza-  
7           tion of nuclear command, control, and communica-  
8           tions; and

9           (12) \$210,300,000 for the increased production  
10          of MH-139 helicopters.

11       (b) NNSA APPROPRIATIONS.—In addition to  
12       amounts otherwise available, there are appropriated to the  
13       Administrator of the National Nuclear Security Adminis-  
14       tration for fiscal year 2025, out of any money in the  
15       Treasury not otherwise appropriated, to remain available  
16       until September 30, 2029—

17           (1) \$200,000,000 to perform National Nuclear  
18       Security Administration Phase 1 studies pursuant to  
19       section 3211 of the National Nuclear Security Ad-  
20       ministration Act (50 U.S.C. 2401);

21           (2) \$540,000,000 to address deferred mainte-  
22       nance and repair needs of the National Nuclear Se-  
23       curity Administration pursuant to section 3211 of  
24       the National Nuclear Security Administration Act  
25       (50 U.S.C. 2401);

1           (3) \$1,000,000,000 to accelerate the construc-  
2           tion of National Nuclear Security Administration fa-  
3           cilities pursuant to section 3211 of the National Nu-  
4           clear Security Administration Act (50 U.S.C. 2401);

5           (4) \$400,000,000 to accelerate the develop-  
6           ment, procurement, and integration of the warhead  
7           for the nuclear-armed sea-launched cruise missile  
8           pursuant to section 3211 of the National Nuclear  
9           Security Administration Act (50 U.S.C. 2401);

10          (5) \$500,000,000 to accelerate primary capa-  
11          bility modernization pursuant to section 3211 of the  
12          National Nuclear Security Administration Act (50  
13          U.S.C. 2401);

14          (6) \$500,000,000 to accelerate secondary capa-  
15          bility modernization pursuant to section 3211 of the  
16          National Nuclear Security Administration Act (50  
17          U.S.C. 2401); and

18          (7) \$100,000,000 to accelerate domestic ura-  
19          nium enrichment centrifuge deployment for defense  
20          purposes pursuant to section 3211 of the National  
21          Nuclear Security Administration Act (50 U.S.C.  
22          2401).

1   **SEC. 20009 [Log 10026]. ENHANCEMENT OF DEPARTMENT OF**  
2                   **DEFENSE RESOURCES TO IMPROVE CAPA-**  
3                   **BILITIES OF UNITED STATES INDO-PACIFIC**  
4                   **COMMAND.**

5       In addition to amounts otherwise available, there are  
6 appropriated to the Secretary of Defense for fiscal year  
7 2025, out of any money in the Treasury not otherwise ap-  
8 propriated, to remain available until September 30,  
9 2029—

10           (1) \$365,000,000 for Army exercises and oper-  
11       ations in the Western Pacific area of operations;

12           (2) \$53,000,000 for Special Operations Com-  
13       mand exercises and operations in the Western Pa-  
14       cific area of operations;

15           (3) \$47,000,000 for Marine Corps exercises and  
16       operations in Western Pacific area of operations;

17           (4) \$90,000,000 for Air Force exercises and op-  
18       erations in Western Pacific area of operations;

19           (5) \$532,600,000 for the Pacific Air Force bi-  
20       ennial large-scale exercise;

21           (6) \$19,000,000 for the development of naval  
22       small craft capabilities;

23           (7) \$35,000,000 for military additive manufac-  
24       turing capabilities in the United States Indo-Pacific  
25       Command area of operations west of the inter-  
26       national dateline;

1           (8) \$450,000,000 for the development of air-  
2       fields within the area of operations of United States  
3       Indo-Pacific Command;

4           (9) \$1,100,000,000 for development of infra-  
5       structure within the area of operations of United  
6       States Indo-Pacific Command;

7           (10) \$124,000,000 for mission networks for  
8       United States Indo-Pacific Command;

9           (11) \$100,000,000 for Air Force regionally  
10      based cluster pre-position base kits;

11          (12) \$25,000,000 to explore the revitalization  
12      of existing Arctic naval infrastructure;

13          (13) \$90,000,000 for the accelerated develop-  
14      ment of non-kinetic capabilities;

15          (14) \$20,000,000 for military exercises with  
16      Taiwan;

17          (15) \$23,000,000 for anti-submarine sonar ar-  
18      rays;

19          (16) \$30,000,000 for intelligence, surveillance,  
20      and reconnaissance capabilities for United States Af-  
21      rica Command;

22          (17) \$30,000,000 for intelligence, surveillance,  
23      and reconnaissance capabilities for United States  
24      Indo-Pacific Command;

1           (18) \$400,000,000 for the development, coordi-  
2           nation, and deployment of economic competition ef-  
3           fects within the Department of Defense;

4           (19) \$10,000,000 for the expansion of Depart-  
5           ment of Defense workforce for economic competition;

6           (20) \$1,000,000,000 for offensive cyber oper-  
7           ations;

8           (21) \$500,000,000 for the Joint Training  
9           Team;

10          (22) \$300,000,000 for the procurement of mesh  
11          network communications capabilities for Special Op-  
12          erations Command Pacific;

13          (23) \$850,000,000 for activities to protect  
14          United States interests and deter Chinese Com-  
15          munist Party aggression through provision of mili-  
16          tary support and assistance to the military, central  
17          government security forces, and central government  
18          security agencies of Taiwan;

19          (24) \$200,000,000 for acceleration of Guam  
20          Defense System program;

21          (25) \$4,029,000,000 for classified military  
22          space superiority programs;

23          (26) \$68,000,000 for Space Force facilities im-  
24          provements;

1           (27) \$100,000,000 for ground moving target  
2       indicator military satellites; and  
3           (28) \$528,000,000 for DARC and  
4       SILENTBARKER military space situational aware-  
5       ness programs.

1   **SEC. 20010 [Log 10027]. ENHANCEMENT OF DEPARTMENT OF**  
2                   **DEFENSE RESOURCES FOR IMPROVING THE**  
3                   **READINESS OF THE ARMED FORCES.**

4       In addition to amounts otherwise available, there are  
5 appropriated to the Secretary of Defense for fiscal year  
6 2025, out of any money in the Treasury not otherwise ap-  
7 propriated, to remain available until September 30,  
8 2029—

9           (1) \$1,400,000,000 for a pilot program on  
10       OPN-8 maritime spares and repair rotatable pool;

11           (2) \$700,000,000 for a pilot program on OPN-  
12       8 maritime spares and repair rotatable pool for am-  
13       phibious ships;

14           (3) \$2,118,000,000 for readiness packages to  
15       keep Air Force aircraft mission capable;

16           (4) \$1,500,000,000 for Army depot moderniza-  
17       tion and capacity enhancement;

18           (5) \$2,000,000,000 for Navy depot and ship-  
19       yard modernization and capacity enhancement;

21          light rotary-wing capabilities.

1 **SEC. 20011 [Log 10029]. IMPROVING DEPARTMENT OF DE-**  
2 **FENSE BORDER SUPPORT AND COUNTER-**  
3 **DRUG MISSIONS.**

4 In addition to amounts otherwise available, there are  
5 appropriated to the Secretary of Defense for fiscal year  
6 2025, out of any money in the Treasury not otherwise ap-  
7 propriated, to remain available until September 30, 2029,  
8 \$5,000,000,000 for activities in support of border oper-  
9 ations, including deployment of military personnel, oper-  
10 ations and maintenance, counter-narcotics and counter-  
11 transnational criminal organization mission support, the  
12 operation of and construction in national defense areas,  
13 the temporary detention of migrants on Department of  
14 Defense installations, and the repatriation of persons in  
15 support of law enforcement activities, pursuant to sections  
16 272, 277, 284, and 2672 of title 10, United States Code.

1 **SEC. 20012 [Log 10030]. ENHANCEMENT OF MILITARY IN-**  
2 **TELLIGENCE PROGRAMS.**

3       In addition to amounts otherwise available, there are  
4 appropriated to the Secretary of Defense for fiscal year  
5 2025, out of any money in the Treasury not otherwise ap-  
6 propriated, to remain available until September 30, 2029,  
7 \$2,000,000,000 for the enhancement of military intel-  
8 ligence programs.

1 **SEC. 20013 [Log 10001]. DEPARTMENT OF DEFENSE OVER-**  
2 **SIGHT.**

3 (a) OFFICE OF THE SECRETARY OF DEFENSE.—In  
4 addition to amounts otherwise available, there is appro-  
5 priated to the Inspector General of the Department of De-  
6 fense for fiscal year 2025, out of any money in the Treas-  
7 ury not otherwise appropriated, \$10,000,000, to remain  
8 available through September 30, 2029, to carry out this  
9 section.

10 (b) OVERSIGHT OF PROGRAMS.—The Inspector Gen-  
11 eral shall monitor Department of Defense activities for  
12 which funding is appropriated in this title, including—

13 (1) programs with mutual technological depend-  
14 encies;

15 (2) programs with related data management  
16 and data ownership considerations;

17 (3) programs particularly vulnerable to supply  
18 chain disruptions and long lead time components;  
19 and

20 (4) programs involving classified matters.

21 (c) CLASSIFIED MATTERS.—Not later than 30 days  
22 after the date of the enactment of this title, the Chairs  
23 of the Committees on Armed Services of the Senate and  
24 House of Representatives shall jointly transmit to the De-  
25 partment of Defense a classified memorandum regarding

- 1 amounts made available in this title related to classified
- 2 matters.

1 **SEC. 20014.[Log 10015] MILITARY CONSTRUCTION**  
2 **PROJECTS AUTHORIZED.**

3 (a) AUTHORIZATION OF APPROPRIATIONS.—Funds  
4 are hereby authorized to be appropriated for military con-  
5 struction, land acquisition, and military family housing  
6 functions of each military department (as defined in sec-  
7 tion 101(a) of title 10, United States Code) as specified  
8 in this title.

9 (b) SPENDING PLAN.—Not later than 30 days after  
10 the date of the enactment of this title, the Secretary of  
11 each military department shall submit to the congressional  
12 defense committees (as defined in section 101(a) of title  
13 10, United States Code) a detailed spending plan by  
14 project for all funds made available by this title to be ex-  
15 pended on military construction projects.

1   **SEC. 20015 [Log 10016]. PLAN REQUIRED.**

2           (a) IN GENERAL.—Not later than 45 days after the  
3 date of the enactment of this title, the Secretary of De-  
4 fense shall submit to the Committees on Armed Services  
5 of the Senate and the House of Representatives a spend-  
6 ing, expenditure, or operating plan for amounts made  
7 available pursuant to this title. Such plan shall include the  
8 same level of detail as required for the report submitted  
9 under section 8007 of division A of the Further Consoli-  
10 dated Appropriations Act, 2024 (Public Law 118–47; 138  
11 Stat. 482).

12          (b) EXPENDITURE REPORT.—Not later than one  
13 year after the date of enactment of this title, and annually  
14 thereafter, the Secretary shall submit to the Committees  
15 on Armed Services of the Senate and the House of Rep-  
16 resentative a report that includes a description of any ex-  
17 penditures made pursuant to the plan required under sub-  
18 section (a).

1 **SEC. 20016 [Log 10031]. LIMITATION ON AVAILABILITY OF**  
2 **FUNDS.**

3       The funds made available under this title may not  
4 be used to enter into any agreement under which any pay-  
5 ment of such funds could be outlaid or disbursed after  
6 September 30, 2034.
