In the appropriate place in the report to accompany H.R. 2810, insert the following new Directive Report Language:

Logistics Management Business Systems Modernization

The committee is aware of the military services' challenges in developing, acquiring, and fielding integrated supply, maintenance, logistics and financial resource planning systems that work across the enterprise. The committee notes that the Department of the Army has achieved a measureable level of success with the Logistics Modernization Program (LMP), a commercially developed enterprise resource planning system (ERP) used by the Army to integrate its Working Capital Fund missions. The committee encourages the Secretaries of the Navy and the Air Force to explore alternative resource planning systems associated with Working Capital Fund operations and consider future implementation of LMP. The committee directs the Secretary of the Navy and the Secretary of the Air Force to provide a briefing to the committee, no later than December 1, 2017, on the following in regard to Navy, Marine Corps, and Air Force Working Capital Fund ERPs:

- (1) The ERP or other systems the military services are currently using to integrate their Working Capital Fund business systems across the services' logistics enterprises;
- (2) The annual cost of modernizing and maintaining their current Working Capital Fund business systems;
- (3) How the three military services' current ERPs are contributing to the national security of the United States or to the efficient management of the Department of Defense, including auditability compliance;
- (4) Options the military services have explored to find alternatives to their current systems which would provide equal or greater capability at a lower cost, including consideration of the Army LMP; and
- (5) Whether the existing acquisition management structure for the military services' current ERPs is adequate to manage and control program costs into the future.

Amendment to H.R. 2810
National Defense Authorization Act for Fiscal Year 2018

Offered by: Madeleine Z. Bordallo, Guam

In the appropriate place in the report to accompany H.R. 2810, insert the following new Directive Report Language:

Sentinel Landscapes Partnership Program

The committee notes the successful initial implementation of the Sentinel Landscapes Partnership Program. The interagency, intergovernmental, and public-private partnership approach of the Sentinel Landscapes Partnership Program contributes to a strong rural economy, to advancing natural resource goals, and to achieving the overall goal of the Department of Defense's Readiness and Environmental Protection Integration (REPI) program to address encroachment issues that limit or restrict military training, testing, and operations. Operating under an interagency Memorandum of Understanding since 2013, six partner landscapes at military installations around the country have been designated, which has provided additional opportunities for collaboration to achieve mutually beneficial outcomes both for the eligible landowners and agricultural producers who voluntarily choose to participate and for DoD and the other agencies participating in the Sentinel Landscapes Partnership Program. The committee encourages the Department to support the designation of additional Sentinel Landscapes in order to further enhance efforts to address current or potential restrictions on the testing and training activities that are vital to preserving military readiness.

The committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services not later than September 30, 2017:

- (1) How the program has benefited the military and defense communities in terms of limiting encroachment and protecting training and other readiness development and sustainment efforts, the benefits to landowners and agricultural producers who have elected to participate
- (2) The process and criteria for designating an area as a Sentinel Landscape.
- (3) Steps taken or planned to expand the number of designated Sentinel Landscapes; and
- (4) Whether codifying the Sentinel Landscapes Partnership program would be beneficial
