

Alon Raphael, President and Chief Executive Officer

Alon has had years of professional work in the technology and commercial real estate industries; inclusive of video games, internet infrastructure products and medical diagnostics. After working at DreamWorks Interactive and Load Media Networks, Alon co-founded Elumium Network Technologies, LLC a high technology Internet infrastructure firm operated under the brands AOL Optimized and NetZero Platinum, amongst others. Alon then co-founded Tamarisc Diagnostics, Inc., a nanobiotechnology-based medical diagnostics firm commercialized out of the University of California, Santa Barbara. His specific skills are in resource management and developing highly technical concepts from idea to market.
