

Shireen

Shireen is a 30 year old Yazidi female survivor of ISIS. Shireen is originally from Ramboosy, a village on the south side of Sinjar. On August 3, 2014 when ISIS overran her town Shireen was captured along with her family as they were trying to flee to Mount Sinjar. Shireen was separated from her family after two months as ISIS militants were relocating her from one place to another. Shireen was held captive for nine months. She was tortured and electrocuted and sexually abused. Shireen did not eat or drink for three months as she was starving herself in hopes she would die to end her misery. After nine months she was released along with a group of ill and elderly men and women who were useless to ISIS. Shireen is still missing about 20 members of her immediate and extended family members
