The Honorable Jamie Raskin  
House Committee on Oversight and Accountability  
2106 Rayburn House Office Building  
Washington, D.C. 20515

Dear Members of Congress,

We are writing to express our support for the Protecting Taxpayer Wallets Act, as introduced by Rep. Scott Perry. This vital legislation is a crucial step towards ensuring that taxpayer dollars are managed with the utmost transparency and accountability, and that government employees are focused on serving the public interest.

The Protecting Taxpayer Wallets Act addresses these priorities by implementing robust oversight mechanisms and enhancing the transparency of expenditures on the federal workforce. These measures are essential for preventing waste, fraud, and abuse, and for restoring public trust in the government's management.

Examples abound of federal employees performing representational work for a labor union while on the clock for their official job. This is called “official time” or “union time” – when a taxpayer-funded government employee performs union work rather than their assigned task. In FY2019, the most recent year for which the [data](#) is available, over 550 IRS employees, for example, were paid taxpayers' dollars to perform union work. Forty-six IRS Customer Service Representatives and 12 Internal Revenue Agents even used “official time” for 80 percent or more of their time at work.

The provisions within this Act— which would charge labor unions for any “official time” used by federal employees, as well as the use of any agency resources such as office space and equipment— are instrumental in creating a more accountable and efficient government. Additionally, this legislation will benefit all Americans by ensuring that taxpayer money is spent wisely and that any misuse is swiftly identified and rectified.

We urge the Committee to advance this important legislation and to continue championing policies that safeguard the financial interests of taxpayers. Thank you for your attention to this matter and for your ongoing efforts to promote transparency and accountability in government spending.

Sincerely,

Akash Chougule
