

Congress of the United States
House of Representatives

COMMITTEE ON OVERSIGHT AND REFORM
2157 RAYBURN HOUSE OFFICE BUILDING
WASHINGTON, DC 20515-6143

MAJORITY (202) 225-5051
MINORITY (202) 225-5074
<http://oversight.house.gov>

March 7, 2019

Mr. Scott Faber
Vice President of Government Affairs
Environmental Working Group
1436 U Street, N.W.
Suite 100
Washington, D.C. 20009

Dear Mr. Faber:

The Subcommittee on Economic and Consumer Policy invites you to testify at a hearing on Tuesday, March 12, 2019, at 10:00 a.m., in room 2154 of the Rayburn House Office Building.

The hearing will assess health risks to consumers related to products containing carcinogens. The Subcommittee plans to examine the hazards of talc, asbestos, and reports that consumer products containing these substances cause cancer.

The enclosed Witness Instruction Sheet provides information for witnesses appearing before the Committee. Please note the procedures for submitting written testimony at least two business days prior to the hearing. If you have questions, please contact Subcommittee staff at (202) 225-5051.

Sincerely,

Raj Krishnamoorthi
Chairman
Subcommittee on Economic and Consumer Policy

Enclosure

cc: The Honorable Michael Cloud, Ranking Member

Witness Instruction Sheet
Governmental Witnesses

1. Witnesses should provide their testimony via e-mail to Josh Zucker, Clerk, at Joshua.Zucker@mail.house.gov, no later than 10:00 a.m. two business days prior to the hearing.
2. Witnesses should also provide a short biographical summary and include it with the electronic copy of testimony provided to the Clerk.
3. At the hearing, each witness will be asked to summarize his or her written testimony in five minutes or less in order to maximize the time available for discussion and questions. Written testimony will be entered into the hearing record and may extend to any reasonable length.
4. Written testimony will be made publicly available and will be posted on the Committee's website.
5. The Committee does not provide financial reimbursement for witness travel or accommodations. Witnesses with extenuating circumstances, however, may submit a written request for such reimbursements to Robin Butler, Financial Administrator, 2157 Rayburn House Office Building, at least one week prior to the hearing. Reimbursements will not be made without prior approval.
6. Witnesses with disabilities should contact Committee staff to arrange any necessary accommodations.
7. Please note that Committee Rule 16(b) requires counsel representing an individual or entity before the Committee or any of its subcommittees, whether in connection with a request, subpoena, or testimony, promptly submit the attached notice of appearance to the Committee.

For inquiries regarding these rules and procedures, please contact the Committee on Oversight and Reform at (202) 225-5051.

Truth in Testimony Disclosure Form

In accordance with Rule XI, clause 2(g)(5)*, of the *Rules of the House of Representatives*, witnesses are asked to disclose the following information. Please complete this form electronically by filling in the provided blanks.

Committee: Oversight and Reform

Subcommittee: Economic and Consumer Policy

Hearing Date: March 12, 2019

Hearing Subject:

To assess the health risks to consumers related to products containing carcinogens.

Witness Name: Scott Faber

Position>Title: Vice President of Government Affairs

Witness Type: Governmental Non-governmental

Are you representing yourself or an organization? Self Organization

If you are representing an organization, please list what entity or entities you are representing:

Environmental Working Group

If you are a non-governmental witness, please list any federal grants or contracts (including subgrants or subcontracts) related to the hearing's subject matter that you or the organization(s) you represent at this hearing received in the current calendar year and previous two calendar years. Include the source and amount of each grant or contract. If necessary, attach additional sheet(s) to provide more information.

If you are a non-governmental witness, please list any contracts or payments originating with a foreign government and related to the hearing's subject matter that you or the organization(s) you represent at this hearing received in the current year and previous two calendar years. Include the amount and country of origin of each contract or payment. If necessary, attach additional sheet(s) to provide more information.

False Statements Certification

Knowingly providing material false information to this committee/subcommittee, or knowingly concealing material information from this committee/subcommittee, is a crime (18 U.S.C. § 1001). This form will be made part of the hearing record.

Witness signature

03/07/2014

Date

If you are a non-governmental witness, please ensure that you attach the following documents to this disclosure. Check both boxes to acknowledge that you have done so.

- Written statement of proposed testimony
- Curriculum vitae

*Rule XI, clause 2(g)(5), of the U.S. House of Representatives provides:

(5)(A) Each committee shall, to the greatest extent practicable, require witnesses who appear before it to submit in advance written statements of proposed testimony and to limit their initial presentations to the committee to brief summaries thereof.

(B) In the case of a witness appearing in a nongovernmental capacity, a written statement of proposed testimony shall include a curriculum vitae and a disclosure of any Federal grants or contracts, or contracts or payments originating with a foreign government, received during the current calendar year or either of the two previous calendar years by the witness or by an entity represented by the witness and related to the subject matter of the hearing.

(C) The disclosure referred to in subdivision (B) shall include—

(i) the amount and source of each Federal grant (or subgrant thereof) or contract (or subcontract thereof) related to the subject matter of the hearing; and

(ii) the amount and country of origin of any payment or contract related to the subject matter of the hearing originating with a foreign government.

(D) Such statements, with appropriate redactions to protect the privacy or security of the witness, shall be made publicly available in electronic form not later than one day after the witness appears.

Know your environment.
Protect your health.

Testimony of Scott Faber

on

Examining the Public Health Risks of Carcinogens in Consumer Products

Before the

Economic and Consumer Policy Subcommittee

of the

House Committee on Oversight and Government Reform

March 12, 2019

Thank you for the opportunity to testify. My name is Scott Faber, and I am the Senior Vice President for Government Affairs for the Environmental Working Group, a national environmental health organization that has been evaluating the safety of consumer products for more than two decades.

Chemicals and contaminants linked to cancer can be found in food, water and many other everyday products. However, no category of consumer products is subject to less government oversight than cosmetics and other personal care products. Although many of the chemicals and contaminants in cosmetics likely pose little risk, exposure to some chemicals and contaminants used in cosmetics and other personal care products has been linked to serious health problems, including cancer. Since 2009, 595 cosmetics manufacturers have reported using 88 chemicals that have been linked to cancer, birth defects, or reproductive harm in more than 73,000 products.¹

Chemicals and contaminants found in cosmetics and other personal care products that have been

¹ Cal. Dep't of Pub. Health, Cal. Safe Cosmetics Program, Current Data Summary, <https://www.cdph.ca.gov/Programs/CCDPHP/DEODC/OHB/CSCP/Pages/SummaryData.aspx> (last accessed Mar. 8, 2019). The California Safe Cosmetics Act of 2005 requires cosmetic manufacturers to disclose to the California Department of Public Health all products containing ingredients known or suspected to cause cancer, birth defects or other reproductive toxicity as determined by certain authoritative scientific bodies, including the Environmental Protection Agency, the National Toxicology Program and the International Agency for Research on Cancer.

linked to chronic health problems include phthalates,² parabens,³ formaldehyde,⁴ chemicals designed to release formaldehyde,⁵ and 1,4-dioxane.⁶ A full list is attached to my testimony. Repeated use of everyday products containing these and other chemicals and contaminants increases the risk of cancer and other serious health problems.

Nevertheless, only two pages of the 829-page Federal Food, Drug and Cosmetics Act govern cosmetics, and those provisions provide the Food and Drug Administration no financial resources and sharply limit the FDA's authority to regulate chemicals and contaminants that pose chronic risks.⁷ Although Congress has since given FDA the power to ensure that food additives,⁸ color additives⁹ and pesticides¹⁰ pose "no harm" from repeat exposures, Congress has not given FDA the same authority to regulate the chronic risks posed by chemicals and contaminants in cosmetics.

Instead, FDA largely relies upon self-regulation to address the risks posed by the \$86 billion personal care products industry. As FDA Commissioner Scott Gottlieb and Center for Food Safety and Applied Nutrition Director Susan Mayne said last week:

" "[C]urrent law does not require cosmetics to be reviewed and approved by the FDA prior to being sold to American consumers . . . [W]hen it comes to cosmetics, companies and individuals who market these products in the U.S. hold the responsibility for the safety and labeling of their products. This means that ultimately a cosmetic manufacturer can

⁷ Section 601(a) of the FDCA (21 U.S.C. § 361(a)) states that a cosmetic is deemed adulterated if it "bears or contains any poisonous or deleterious substance which may render it injurious to users under the conditions of use prescribed in the labeling thereof, or under such conditions of use as are customary or usual." A cosmetic is also adulterated under the 1938 FDCA if packed in unsanitary conditions that may render it "injurious to health" or its container is composed in whole or part of any poisonous or deleterious substance that may render it "injurious to health."

⁸ Food Additives Amendment of 1958, Pub. L. No. 85-929, 72 Stat. 1784.

⁹ Color Additives Amendment of 1960, Pub. L. No. 86-618, 74 Stat. 397.

¹⁰ Food Quality Protection Act of 1996, Pub. L. No. 104-170, 110 Stat. 1489.

decide if they'd like to test their product for safety . . . To be clear, there are currently no legal requirements for any cosmetic manufacturer marketing products to American consumers to test their products for safety.”¹¹

However, industry self-regulation lacks the safeguards provided by FDA reviews. Programs like the Cosmetics Ingredient Review (CIR), which is financed by cosmetics manufacturers and housed inside the industry’s trade association, focus on short-term effects, such as allergic reactions, and face significant data gaps about chemical use and toxicity. Many CIR findings are inconsistent with the findings by other regulatory authorities or experts.¹²

As a result, cosmetics and other personal care products have fallen into a regulatory black hole. To date, FDA has regulated only nine ingredients for safety reasons.¹³ By contrast, more than 40 nations have taken steps to ban or restrict more than 1,400 chemicals or contaminants in cosmetics and personal care products, including chemicals linked to cancer, reproductive harm and neurological harm. Other nations have banned long-chain parabens like isopropylparaben and isobutylparaben, banned phthalates like dibutyl phthalate and diethylhexyl phthalate,¹⁴ and restricted the presence of chemicals like formaldehyde¹⁵ and perfluorooctanoic acid (PFOA).¹⁶

In addition to the risks posed by intentionally added ingredients, cosmetics can be contaminated with heavy metals, including arsenic, cadmium, lead, mercury and nickel. Though banned in

¹¹ Statement from FDA Commissioner Scott Gottlieb, M.D., and Susan Mayne, Ph.D., director of the Center for Food Safety and Applied Nutrition, on tests confirming a 2017 finding of asbestos contamination in certain cosmetic products and new steps that FDA is pursuing to improve cosmetics safety (Mar. 5, 2019), <https://www.fda.gov/NewsEvents/Newsroom/PressAnnouncements/ucm632736.htm>.

¹² For example, methylisothiazolinone, iodopropynyl butylcarbamate, and methyldibromo glutaronitrile are preservatives deemed too risky for certain uses by other authorities but were found safe for use at higher concentrations or without similar restrictions by CIR. For a more detailed discussion, visit <https://www.help.senate.gov/imo/media/doc/Faber.pdf>.

more than 50 nations, asbestos can also contaminate cosmetics made with talc,¹⁷ such as facial powders. Although there is no formal estimate of the number of cosmetics products that contain talc,¹⁸ EWG found more than 2,100 products that contain talc as an ingredient in our database of more than 26,000 personal care products. Of these, about 1,200 are loose or pressed powders that could pose a risk of being inhaled.¹⁹

Product Form	Products with Talc
Liquids, Soaps and other Solids	927
Loose Powder	123
Pressed Powder	1,051
Aerosol Spray	18
Total with Talc	2,119
Total Products in Skin Deep®	26,143

Source: Environmental Working Group's Skin Deep® Cosmetics Database

Even small amounts of asbestos in talc can cause mesothelioma and other diseases many years after exposure. Personal care products which have a detectable amount of asbestos are considered adulterated by FDA, but cosmetics companies that use talc as an ingredient have no duty to test for asbestos and detection methods cannot guarantee that talc is “asbestos-free.” FDA encourages companies to select talc mines to avoid asbestos contamination and to conduct testing, but companies are not obligated to share test results or safety records.

In general, FDA has very little authority to oversee the personal care products industry. Personal care products companies do not have to register with FDA, provide FDA ingredient statements, adopt Good Manufacturing Practices, or GMPs, report adverse events to FDA, or provide FDA access to safety records. FDA does not have the power to suspend registration or order recalls

¹⁷ Geologically, talc and asbestos can be formed from the same parent rock. As a result, mined talc deposits in many parts of the world can be contaminated with asbestos fibers.

¹⁸ Cosmetics companies are not required to register and provide ingredient statements to FDA, so FDA is unable to estimate the number products which contain talc.

¹⁹ Envtl. Working Grp., EWG's Skin Deep® Cosmetics Database, <https://www.ewg.org/skindeep/>.

when products pose the risk of serious adverse health consequences or death. By contrast, manufacturers of food, drugs and medical devices must register with FDA, maintain and give FDA access to records, and report adverse events. If food, drugs or devices are unsafe, FDA can suspend production and product licenses. If unsafe food or devices reach the market, FDA can order a recall and take legal action against drug makers that do not recall their products.²⁰

Since the early 1950s, efforts by Congress to modernize cosmetics law have been defeated by the cosmetics industry.²¹ Since 2015, however, many cosmetics companies have supported giving FDA the authority and resources to review and regulate chemicals and contaminants of concern in cosmetics, and have supported requiring manufacturers to register, provide ingredient statements, adopt GMPs and report adverse events. Companies have also supported giving FDA the power to suspend production of dangerous products and order mandatory recalls.²²

The cosmetics industry has grown dramatically since Congress enacted current cosmetics law almost 80 years ago – from \$1 billion in sales in 1938 to more than \$80 billion in 2016.²³ But

²⁰ E.g., 21 U.S.C. § 350(d) (food); 21 C.F.R. § 807 (devices); 21 U.S.C. § 360 (drugs); 21 C.F.R. §§ 607.65, 1271 (biologics).

²¹ In October 1951, the House of Representatives authorized a Select Committee, led by then-Rep. James Delaney (D-N.Y.) to investigate the use of chemicals, compounds and synthetics in the production of cosmetics and related health effects. See H.R. Rep. No. 82-2182. More than a dozen bills to reform cosmetics have been introduced since then. See, e.g., the Cosmetics Safety Act, S. 683, 93rd Cong. (1st Sess. 1973); H.R. 1527, 93rd Cong. (1st Sess. 1973) (requiring that cosmetics containing mercury or any of its compounds bear labeling stating that fact); H.R. 14805, 93rd Cong. (1st Sess. 1974) (authorizing FDA to halt the sales and distribution of food, drugs, and cosmetics adulterated or misbranded in a manner that presents an imminent hazard to the public health); H.R. 6249, 94th Cong. (1st Sess. 1975) (applying the provisions of the FDCA to hair dyes); the Cosmetics Safety Amendments of 1975, S. 1681, 94th Cong. (2nd Sess. 1976); Cosmetics Act, H.R. 1993, 95th Cong. (1st Sess. 1977); Cosmetics Safety Amendments, S. 2365, 95th Cong. (1st Sess. 1977); Food, Drug, and Cosmetics Amendments of 1980, H.R. 2554, 91st Cong. (1st Sess. 1980) (permitting the inspection of a consulting laboratory in which food, drugs, devices, or cosmetics are being processed, packed, or held); the Safe Cosmetics Act of 2010, H.R. 5786, 111th Cong. (2nd Sess. 2010); the Safe Cosmetics Act of 2011, H.R. 2359, 112th Cong. (1st Sess. 2011); Cosmetics Safety Enhancement Act of 2012, H.R. 4262, 112th Cong. (2nd Sess. 2012); Cosmetics Safety Amendments of 2012, H.R. 4395, 112th Cong. (2nd Sess. 2012); Safe Cosmetics and Personal Care Products Act of 2013, H.R. 1385, 113th Cong. (1st Sess. 2013); Personal Care Products Safety Act, S. 1014, 114th Cong. (1st Sess. 2015); Cosmetics Modernization Amendments of 2015, H.R. 4075, 114th Cong. (1st Sess. 2015); Cosmetics Modernization Amendments of 2017, Personal Care Products Safety Act, S. 1113, 115th Cong. (1st Sess. 2017); Personal Care Products Safety Act, S. 726, 116th Cong. (1st Sess. 2019).

²² The following companies support bipartisan cosmetics reform legislation: Amyris (Biossance), Au Naturale, Babo Botanicals, Beautycounter, California Baby, Coalition of Handcrafted Entrepreneurs, Cote, Earth Mama Organics, Éclair Naturals, Estee Lauder Companies, EO Products, Goddess Garden Organics, Handcrafted Soap & Cosmetic Guild, Handmade Cosmetic Alliance, Herban Lifestyle, the Honest Company, Johnson & Johnson, Juice Beauty, L’Oreal, Made Of, Makes 3 Organics, Milk + Honey, MyChelle Dermaceuticals, OSEA, Peet Rivko, Procter & Gamble, Rahua, Revlon, Seventh Generation, Silk Therapeutics, SkinOwl, S.W. Basics, Tenoverten, Unilever, Vapour Organic Beauty.

cosmetics law has not kept pace. Today consumers use a wide variety of personal care products. Each day American women use an average of 12 personal care products that contain 168 different chemicals. Men use an average of six personal care products that contain 85 different chemicals. Most consumers believe that these chemicals are already reviewed by the FDA, and three-fourths of consumers support strict regulation, regardless of party affiliation.²⁴ Reforms like those proposed by Chairman Frank Pallone²⁵ and by Sens. Dianne Feinstein and Susan Collins²⁶ will ensure that these consumer expectations are being met.

Thank you for the opportunity to testify.

Senior Vice President, Environmental Working Group.

Scott Faber is the Senior Vice President of Government Affairs for the Environmental Working Group. Prior to joining EWG in 2012, Faber served as Vice President for Federal Affairs for the Grocery Manufacturers Association, where he led efforts to enact the Food Safety Modernization Act. Previously, Faber was a campaign manager for the Environmental Defense Fund. Faber holds a J.D. from the Georgetown University Law Center, where he is an Adjunct Professor of Law.

**CALIFORNIA DEPARTMENT OF PUBLIC HEALTH
OCCUPATIONAL HEALTH BRANCH
CALIFORNIA SAFE COSMETICS PROGRAM**
June 2018

REPORTABLE INGREDIENTS LIST

The California Safe Cosmetics Act of 2005 requires cosmetic manufacturers to disclose to the California Department of Public Health (CDPH) all products containing ingredients known or suspected to cause cancer, birth defects, or other reproductive toxicity as determined by the authoritative scientific bodies cited in California Health and Safety Code Section 111791.5. These bodies are 1) the California Office of Environmental Health Hazard Assessment (Proposition 65 List of Chemicals Known to Cause Cancer or Reproductive Toxicity); 2) U.S. Environmental Protection Agency (U.S. EPA); 3) National Toxicology Program (NTP) Office of Health Assessment and Translation (OHAT) (formerly Center for the Evaluation of Risks to Human Reproduction (CERHR)); 4) NTP's Report on Carcinogens (RoC); and 5) the International Agency for Research on Cancer (IARC).

To assist companies with reporting, CDPH has compiled this list of reportable ingredients based on lists and reports available from these organizations. Please note that the authoritative bodies are continually updating published information. For the most up-to-date guidance on reportable chemicals, please refer directly to the lists and reports available from these organizations.

Chemical Abstract Service (CAS) Registry Numbers and synonyms are provided for some of the listed chemicals. However, this guidance document is not all-inclusive. Manufacturers may still be required to report a chemical to CDPH even if a specific synonym or CAS number for an ingredient is not listed here.

Note to consumers: Not all of these chemicals are found in cosmetic products. Also, note that the likelihood of a cosmetic product leading to cancer or reproductive harm depends on many factors, including but not limited to the amount and type of exposure to chemicals in the product. The chemicals are listed here because of findings from research on the chemicals and not on cosmetic products.

For more information on the California Safe Cosmetics Program, please visit our webpage at: www.cdph.ca.gov/Cosmetics or call us at (877) 325-3223.
