

COMMITTEE ON HOUSE ADMINISTRATION

118th CONGRESS

A RESOLUTION

COMMITTEE RESOLUTION 118-28

Resolution to Amend the Parking Policy for the 118th Congress

Be it resolved, that the Committee on House Administration hereby amend the Parking Policy for the 118th Congress by striking and replacing the Reserved Parking subsection as follows:

Reserved Parking

Members of the House may choose their reserved parking spaces from any unassigned space in the various garages. Only Members whose parking space is on the G3 level of the Rayburn Garage may reserve a space on that level.

1. Staff must choose their reserved space from the designated parking areas indicated on their permit.
2. Each person who reserves indoor space incurs additional taxable income as a working condition fringe benefit. Under the tax code and IRS regulations, for 2024, Members and their employees have imputed taxable income to the extent that the fair market value of Government- provided parking exceeds \$315.00/month. The fair market value of a space at the House of Representatives is \$335.00/month and therefore, the imputed taxable income is \$20.00/month. These amounts are subject to change. (Contact the Office of Payroll and Benefits for current rates at extension 5-1435.)
3. Only individuals with reserved parking will be permitted to park their vehicles in their designated spaces for an indefinite period with valid license plates.
4. The Committee on House Administration reserves the right to limit the number of reserved spaces at any time.

Be it further resolved, that Committee staff is authorized to make any necessary technical and conforming changes to the Parking Policy for the 118th Congress, or any other document or site as may be required to effect the implementation of the Resolution.
