AMENDMENT TO H.R. 3
OFFERED BY MRS. CHRISTENSEN OF VIRGIN ISLANDS

At the end of the bill, add the following new section:

SEC. 9. PROTECTING THE HEALTH OF VULNERABLE COMMUNITIES.

This Act shall not become effective unless the President finds that higher levels of toxic air pollutants that may result from refining up to 830,000 barrels per day of crude oil product derived from the tar sands and imported through the Keystone XL pipeline will not harm the health of children and senior citizens living in predominantly low-income and minority communities located near refineries receiving such crude oil product.
