Signature: _____

Date: 5/17/13

Hon. Dave McCurdy **President and CEO**

An acknowledged expert in public policy and a passionate spokesman for American innovation, Dave McCurdy is consistently listed as one of the most influential association executives and top policy advocates in Washington, D.C. Commanding respect on both sides of the political aisle, McCurdy is often cited for his strategic leadership and his ability to find consensus in the public policy arenas.

McCurdy joined the American Gas Association (AGA) as president and CEO in February of 2011. Founded in 1918, AGA represents more than 200 local energy utility companies that deliver natural gas to over 177 million Americans. Today, natural gas meets almost one-fourth of the United States' energy needs.

McCurdy joined AGA after serving for four years as president and CEO of the Alliance of Automobile Manufacturers (Alliance). He led the Alliance during a period of unprecedented economic, environmental and regulatory challenges for the auto industry. During his tenure, the Alliance recorded significant achievements and McCurdy was instrumental in developing the historic agreement between automakers and the Obama administration establishing the national program to increase fuel economy by 40 percent and decrease greenhouse gas emissions by 30 percent by 2016.

Prior to his work at the Alliance, McCurdy served for eight years as president and CEO of the Electronic Industries Alliance (EIA). As president, he helped promote the market development and competitiveness of the U.S. high-tech industry by crafting both domestic and international programs and policies for EIA's nearly 1,300 member companies. In April of 2001, McCurdy co-founded the Internet Security Alliance as a non-profit collaboration between EIA and the Carnegie Mellon University CyLab to enhance cyber security.

Before his tenure at EIA, McCurdy had a distinguished career in Congress. McCurdy spent 14 years (1981-1995) in the House of Representatives as the Member from the Fourth Congressional District of Oklahoma. He attained numerous leadership positions, including: Chairman of the House Intelligence Committee; Chairman of the Military Installations and Facilities Subcommittee of the House Armed Services Committee; and Chairman of the Transportation Aviation and Materials Subcommittee of the Science and Space Committee.

As a House Member, McCurdy played a major role in enacting numerous important legislative initiatives, including: the 1988 National Superconductivity Competitiveness Act; the 1985

Goldwater-Nichols Act, which reorganized the Department of Defense; the Nunn-McCurdy Amendment in 1982, requiring congressional notification of Department of Defense cost overruns of 15 percent or more; and the 1993 National Service Legislation, which originated in a bill introduced by Representative McCurdy and Senator Nunn.

McCurdy also had a successful business consulting and investment practice as chairman and CEO of the McCurdy Group, L.L.C.

Dave McCurdy was appointed by Secretary of Defense Robert Gates to the Defense Policy Board, which provides the secretary with independent, informed advice and opinion concerning matters of defense policy. McCurdy served on the board from 2008-2011 during the Gates tenure in both the Bush and Obama administrations. He currently serves on a number of not-for-profit boards including: the Center for Strategic and Budgetary Analysis, The Center for Naval Analysis, The Center for Energy Workforce Development, the Alliance to Save Energy, LMI (Logistics Management Institute), Business Council for Sustainable Energy, the Economic Club of Washington, D.C. and the United States Energy Association.

In 2011, McCurdy co-founded the Coalition for a Fiscally Sound America- a bi-partisan group organized to make more Americans aware of the scope and depth of the nation's fiscal dilemma and help them better understand the causes, effects and potential solutions. He co-chairs the Congressional Fiscal Leadership Council a group of former House and Senate members as part of the Fix the Debt Campaign.

A 1972 graduate of the University of Oklahoma, McCurdy received his J.D. in 1975 from Oklahoma Law School. As a Rotary International Graduate Fellow, he studied international economics at Edinburgh University, Scotland. He also held a commission in the United States Air Force Reserve, attaining the rank of major and serving as a Judge Advocate General (JAG).

His numerous prestigious awards and honors include being the first recipient of the University of Oklahoma's Distinguished Service Award, being named one of the Ten Outstanding Young Men in America, receiving the PTA's national award for child advocacy and the USO's award for his commitment to improving education. McCurdy was a four-time MVP of the Congressional Baseball Game and a member of Roll Call's Hall of Fame.

McCurdy and his wife, Dr. Pam McCurdy, a physician specializing in child psychiatry, live in McLean, VA. They have three grown children, Josh, Cydney and Shannon, two sons-in-law and a grandson.
