“(bb) PUBLIC AVAILABILITY OF HOSPITAL UPPER PAYMENT LIMIT DEMONSTRATIONS.—The Secretary shall make publicly available upper payment limit demonstrations for hospital services that a State submits with respect to a fiscal year of the State (beginning with State fiscal year 2022) to the Administrator of the Centers for Medicare & Medicaid Services.”.

SEC. 303. REPORT BY COMPTROLLER GENERAL.

Not later than the date that is 21 months after the date of the enactment of this Act, the Comptroller General of the United States shall identify and report to Congress policy considerations for legislative action with respect to establishing an equitable formula for determining disproportionate share hospital allotments for States under section 1923 of the Social Security Act (42 U.S.C. 1396r–4) that takes into account the following factors:

(1) The level of uncompensated care costs of hospitals in a State.

(2) Expenditures of a State with respect to hospitals, including payment adjustments made under such section 1923 to disproportionate share hos-
pitals (as defined under the State plan under title XIX of such Act (42 U.S.C. 1396 et seq.) pursuant to subsection (a)(1)(A) of such section 1923), upper payment limit supplemental payments, and other related payments that hospitals may receive from the State.

(3) State policy decisions that may affect the level of uncompensated care costs of hospitals in a State.

SEC. 304. SENSE OF CONGRESS REGARDING THE NEED TO DEVELOP A MORE PERMANENT LEGISLATIVE SOLUTION TO PROVIDE THE TERRITORIES WITH A RELIABLE AND CONSISTENT SOURCE OF FEDERAL FUNDING UNDER THE MEDICAID PROGRAM.

It is the sense of Congress that—

(1) the territories of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, and the United States Virgin Islands are currently subject to Federal funding caps for their Medicaid programs;

(2) as a result of these Federal funding caps, which have not been adjusted over time, the territories continue to struggle in managing their Medicaid programs, including planning for their respec-
tive financial obligations and managing health care
services for low-income adults, children, pregnant
women, elderly adults, and persons with disabilities;

(3) to address this disparate funding treatment
and to provide the territories with some measure of
relief, Congress has had to enact legislation six
times in the last 15 years, including multiple tem-
porary increases in the Federal funding caps, higher
Federal medical assistance percentage rates, and bil-
lions of dollars in supplemental block grants;

(4) the supplemental funding provided to the
territories under this title with respect to their Med-
icaid programs continues Congress’ commitment to
ensuring the sustainability of these critically impor-
tant programs and the people these programs serve;
and

(5) a more permanent legislative solution must
be developed in order to provide the territories with
a reliable and consistent source of Federal funding
under their Medicaid programs so that the terri-
tories can continue to meet the health care needs of
vulnerable populations.
