

**Opening Statement of Representative John Joyce**  
**House Energy and Commerce Full Committee**  
**“Markup of Six Bills”**  
**July 20, 2022**  
*(As Prepared for Delivery)*

Thank you, Chairman Pallone and Ranking Member Rodgers for hosting today’s markup. American’s privacy is not something that should be taken lightly, as technology continues to advance there needs to be additional safeguards in place to ensure their information does not fall into the wrong hands. I applaud this Committees work on coming to a bipartisan agreement to provide the framework needed to protect our nation’s children and American’s from nefarious actors and to the ultimate benefit of securing their data. Thank you and I yield back.
