

ONE HUNDRED SIXTEENTH CONGRESS  
**Congress of the United States**  
**House of Representatives**  
COMMITTEE ON ENERGY AND COMMERCE  
2125 RAYBURN HOUSE OFFICE BUILDING  
WASHINGTON, DC 20515-6115

Majority (202) 225-2927  
Minority (202) 225-3641

July 6, 2020

The Honorable Asa Hutchinson  
Governor  
State of Arkansas  
State Capitol Room 250  
500 Woodlane Ave.  
Little Rock, AR 72201

Dear Governor Hutchinson:

Thank you for appearing before the Subcommittee on Oversight and Investigations on Tuesday, June 2, 2020, at the remote hearing entitled “On the Front Line: How Governors are Battling the COVID-19 Pandemic.” We appreciate the time and effort you gave as a witness before the Subcommittee on Oversight and Investigations.

Pursuant to Rule 3 of the Committee on Energy and Commerce, members are permitted to submit additional questions to the witnesses for their responses, which will be included in the hearing record. Attached are questions directed to you from a member of the Committee. In preparing your answers to these questions, please address your responses to the member who has submitted the questions using the Word document provided with this letter.

To facilitate the publication of the hearing record, please submit your responses to these questions by no later than the close of business on Monday, July 20, 2020. As previously noted, your responses to the questions in this letter, as well as the responses from the other witnesses appearing at the hearing, will all be included in the hearing record. Your responses should be transmitted by email in the Word document provided with this letter to Benjamin Tabor with the Committee staff ([benjamin.tabor@mail.house.gov](mailto:benjamin.tabor@mail.house.gov)). A paper copy of your responses is not required. Using the Word document provided for submitting your responses will also help maintain the proper format for incorporating your answers into the hearing record.

The Honorable Asa Hutchinson

Thank you for your prompt attention to this request. If you need additional information or have other questions, please have your staff contact Mr. Tabor at (202) 225-2927.

Sincerely,

A handwritten signature in blue ink that reads "Frank Pallone, Jr." in a cursive style.

Frank Pallone, Jr.  
Chairman

Committee on Energy and Commerce

Hon. Diana DeGette, Chair  
Subcommittee on Oversight and Investigations

Hon. Brett Guthrie, Ranking Member  
Subcommittee on Oversight and Investigations

**Committee on Energy and Commerce  
Subcommittee on Oversight and Investigations**

**Hearing on  
“On the Front Line: How Governors are Battling the COVID-19 Pandemic”**

**June 2, 2020**

**The Honorable Asa Hutchinson, Governor, State of Arkansas**

**The Honorable Gus Bilirakis (R-FL)**

1. The Paycheck Protection Program and Healthcare Enhancement Act included \$11 billion for states and local governments for purposes related to COVID-19 testing, including support for use by employers or in other settings
  - a. What role are employers playing in your state in your COVID-19 testing strategy as businesses begin to re-open in your state?
  - b. What, if any, challenges have employers shared with you that limit their ability to increase COVID-19 testing as employees return to the office?
2. Committee Republicans released a paper on COVID-19 testing and surveillance, highlighting among other things, the importance of surveillance in a pandemic.
  - a. What surveillance efforts are underway in your state for COVID-19?
  - b. Are these surveillance systems new, or are they pre-existing systems that are being leveraged for COVID-19?
    - i. If they are pre-existing systems, what other illnesses do they track?
  - c. How do these systems report up to HHS/CDC?
  - d. How often does your state’s system(s) report to the CDC? Real time, daily, weekly?
3. According to the CDC, the U.S. COVID-19 surveillance goals are to: (1) monitor the spread and intensity of COVID-19 disease in the U.S.; (2) understand disease severity and the spectrum of illness; (3) understand risk factors for severe disease and transmission; (4) monitor for changes in the virus that causes COVID-19; (5) estimate disease burden; and (6) produce data for forecasting COVID-19 spread and impact.
  - a. Do you feel that the surveillance systems in your state are sufficient to meet all of these goals?

- i. If not, what improvements do you think need to be made?
4. One of the keys to Florida's success was its early deferment to local officials who were able to use local data to inform a community-tailored approach instead of a "one-size fits the state" solution.
  - a. How important is local input and engagement in a responsible phased reopening?
  - b. How do current data models you're consulting account for policy nuances like a regional patchwork of stay-at-home orders in your state or input from hospitals and doctors?
