

Todd Ramey CV

Todd Ramey is the Senior Vice President of Markets and Digital Strategy for the Midcontinent Independent System Operator (MISO). He leads MISO's markets and technology transformation efforts. Mr. Ramey manages teams focused on advancing technologies, transforming and maturing capabilities, and developing and executing market design and evaluation enhancements. This work drives reliability and helps to meet the needs of MISO's customers in the future.

Mr. Ramey has held several key positions at MISO, including managing real-time operations, as well as day-to-day transmission and generation dispatch operations. He also played a central role in developing and launching MISO's energy markets in 2005 and ancillary services in 2009. In addition to spearheading efforts to improve those markets and their operations continuously, Mr. Ramey also led MISO stakeholder activities related to market design and function, securing stakeholder support for many market enhancements.

Mr. Ramey joined MISO in 2001 from the Indianapolis Power & Light Co., where he served as Power Marketing & Generation System Operations Director. He has 35 years of experience in wholesale market design, administration, and generation and transmission system operations.

He earned a Bachelor of Science in Mechanical Engineering from Purdue University and a Master of Business Administration from Butler University.
