tional time period provided under paragraph
(1)(B), issue a final administrative order—
“(i) making a determination that the ingredient or nonfunctional constituent has not been shown to be safe in cosmetic products; and

“(ii) explaining why the available data and information are not adequate to assess the safety of the ingredient or nonfunctional constituent.

“(B) ADEQUATE DATA AND INFORMATION.—If the Food and Drug Administration determines, after considering any additional data and information submitted under paragraph (1)(B), that the available data and information are adequate to make a determination regarding safety under subsection (d)(4)(A), the Food and Drug Administration shall, within 180 days of the close of the comment period, issue a proposed order, followed by a final order, on such cosmetic ingredient or nonfunctional constituent, in accordance with such subsection. If the Food and Drug Administration determines, after considering any additional data and information submitted under paragraph (1)(B), that the available data and information are adequate to make a determination
regarding safety under subsection (d)(4)(B),

the Food and Drug Administration shall, within
180 days of the close of the comment period,
issue a final order.

“(g) SAFETY ASSESSMENT.—

“(1) IN GENERAL.—In assessing the safety of
an ingredient or nonfunctional constituent, the Food
and Drug Administration shall consider whether
there is adequate evidence to support a reasonable
certainty among competent scientists that the ingre-
dient is not harmful under the recommended or sug-
gested conditions of use or customary or usual use,
or that a nonfunctional constituent is not harmful
under the recommended or suggested tolerance levels
or the level at which it is customarily or usually
present. The Food and Drug Administration may
not consider an ingredient or non-functional con-
stituent harmful solely because it can cause minor
adverse health reactions, such as minor transient al-
lergic reactions or minor transient skin irritations,
in some users.

“(2) FACTORS.—In assessing the safety of an
ingredient or nonfunctional constituent, the Sec-
retary shall consider the following, among other rel-
event factors, to the extent the Secretary determines adequate data are available for such analyses:

“(A) The probable human exposure to the ingredient or nonfunctional constituent from expected use in cosmetics.

“(B) The probable cumulative and aggregate effect in humans of relevant exposure to the ingredient or nonfunctional constituent or to any chemically or pharmacologically related substances from use in cosmetics or other products with similar routes of exposure under recommended or suggested conditions of use or their customary use, to the extent adequate data is available for analysis. In appropriate cases, the Food and Drug Administration may consider available information on the total exposure to an ingredient or nonfunctional constituent from all sources.

“(C) Whether warnings or recommendations in a product label, as part of any conditions of use or tolerances imposed by the Food and Drug Administration, would be necessary and appropriate to help ensure the safety of the ingredient or nonfunctional constituent.

“(3) DATA AND INFORMATION.—
“(A) REQUIRED INFORMATION.—A determination that an ingredient or nonfunctional constituent is safe in cosmetics shall be based upon adequate evidence submitted or otherwise known to the Food and Drug Administration, which shall include full reports of all available studies, published or unpublished, that are adequately designed to show whether the ingredient or nonfunctional constituent is safe. Such studies may include in vitro and in silico studies and epidemiological studies, biomonitoring studies, and studies focused on various points during the lifespan of the subject, that use scientifically valid methodology.

“(B) ADDITIONAL RELEVANT INFORMATION.—The Food and Drug Administration shall consider any other relevant information related to the safety of the ingredient or non-functional constituent, including—

“(i) adverse event reports;

“(ii) findings and information from State, Federal, national, and international entities and other bodies composed of scientific and medical experts;
“(iii) if the ingredient or nonfunctional constituent is lawfully used or present in other products regulated by the Food and Drug Administration, the scientific basis for such use; and

“(iv) experience with the ingredient or nonfunctional constituent in products that are distributed in the United States or in other countries, if such experience is well-documented and has resulted in substantial human exposure to the ingredient or nonfunctional constituent over time.

“SEC. 609. SAFETY OF FINISHED COSMETIC PRODUCTS.

“(a) DETERMINATION.—

“(1) IN GENERAL.—Each responsible person for a finished cosmetic product shall, before first distributing the product for sale, make a written determination that the product is safe under the conditions of use recommended in the labeling of the product. Such determination shall be based on adequate evidence that each ingredient in the finished product is safe for the use recommended or suggested in the labeling of the product and that the finished product is safe.
“(2) NEW INFORMATION.—If new information relevant to the determination becomes available, the responsible person shall promptly update the determination to address that information.

“(3) SAFETY WITH RESPECT TO RANGES OF POSSIBLE AMOUNTS.—In the case of a cosmetic product for which there is a range of possible amounts of cosmetic ingredients included in the cosmetic ingredient statement, as described in section 606(c)(2)(E), the safety determination under paragraph (1) shall include substantiation of the safety of the full range in the finished product.

“(b) PRESUMPTION OF ADEQUATE EVIDENCE.—

“(1) IN GENERAL.—Except as provided in subsection (c), a determination made under subsection (a) shall be presumed to be based on adequate evidence if it is supported by—

“(A) with respect to each ingredient in the finished product—

“(i) references to an official statement by one or more expert medical or scientific bodies that the ingredient is safe under the conditions of use recommended or suggested in the product’s labeling; or
“(ii) appropriate safety testing of the ingredient; and

“(B) appropriate safety substantiation of the finished product beyond the safety substantiation of individual ingredients and consideration of the combination of ingredients.

“(2) Statement of an Expert Medical or Scientific Body.—For purposes of this section, a statement of an expert medical or scientific body is an official statement of that body, if—

“(A) the medical or scientific body is a Federal, State, national, or international entity with recognized expertise in chemical or cosmetic safety, or other similarly recognized body composed of scientific and medical experts;

“(B) the statement is based upon adequate data to support the finding of safety, and such data are available to the Food and Drug Administration; and

“(C) the statement is published and endorsed by the medical or scientific body and is not a statement of an employee of such body made in the individual capacity of the employee.

“(c) Rebuttal of Presumption.—Notwithstanding subsection (b), a determination under subsection
(a) will not be presumed to be based on adequate evidence if—

“(1) the Food and Drug Administration issues an order under section 608 that an ingredient or nonfunctional constituent in the finished product is not safe under the product’s conditions of use or customary or usual use; or

“(2) the Food and Drug Administration has provided the manufacturer with notice that—

“(A) the manufacturer has not met the criteria under subsection (b); or

“(B) the Food and Drug Administration has information that raises significant questions about the safety of the product or any of its ingredients.

“(d) TIMELY UPDATE.—Upon notice of inadequate evidence under subsection (c), the responsible person shall have 10 days to submit additional evidence to the Food and Drug Administration regarding the safety of an ingredient, nonfunctional constituent, or the entire cosmetic product, and the Food and Drug Administration shall have 30 days from the date of receipt of such additional evidence to provide the responsible person with notice that the criteria under subsection (b) have been met or not met.
“(e) RECORDS MAINTENANCE.—The responsible person shall maintain records documenting the determination required under this section and the information on which it is based until 5 years after the finished product is no longer marketed.

“(f) SUBMISSION OF RECORDS.—

“(1) IN GENERAL.—The records required under subsection (e) shall, upon the written request of the Food and Drug Administration to the responsible person, be provided to the Food and Drug Administration within a reasonable timeframe not to exceed 30 days, in electronic form.

“(2) CRITERIA.—The Food and Drug Administration may require records under paragraph (1) if—

“(A) the Food and Drug Administration has a reasonable belief, described in written notice, that—

“(i) the finished product may be harmful based on adverse event reports or other scientific information;

“(ii) scientific information raises credible and relevant questions about the safety of the product or any of its ingredients;
“(iii) the determination required under subsection (a) is not supported by adequate evidence; or

“(iv) one or more of the criteria to establish a presumption of adequate evidence of safety in subsection (b) has not been satisfied;

“(B) the Food and Drug Administration, an expert regulatory body, or an expert body composed of scientific and medical experts finds an ingredient in the product to be unsafe under the conditions of use of the product; or

“(C) the Food and Drug Administration concludes that submission of the records will serve the public health or otherwise enable the Food and Drug Administration to fulfill the cosmetic safety purposes of this section.

“(g) GUIDANCE AND REGULATIONS.—

“(1) IN GENERAL.—The Food and Drug Administration shall issue guidance describing the evidence necessary to support a determination under subsection (a), and may, by regulation, establish exemptions to the requirements of this section, if the Food and Drug Administration determines that such
exemptions are supported by adequate evidence and
would have no adverse effect on public health.

“(2) SMALL BUSINESSES.—The Food and Drug
Administration shall, after consultation with the
Small Business Administration and small businesses
that manufacture cosmetics, provide additional guid-
ance for small businesses on compliance with the re-
quirements of this section. Such guidance shall in-
clude specific examples of options for compliance
that do not place an undue burden on small busi-
nesses.”.

respect to the manufacture of cosmetic products are in
harmony.

“(b) TIMEFRAME.—The Food and Drug Administra-

“(B) requires, based on reasonable medical judgment, a medical or surgical intervention to prevent an outcome described in subparagraph (A).

“(c) Submission of Reports.—

“(1) Serious adverse event reports.—Except as provided in paragraph (2), the responsible person shall submit a serious adverse event report to the Food and Drug Administration not later than 15 business days after information concerning the adverse event is received. If a serious adverse event report for a cosmetic with drug properties is filed using Form FDA 3500A (or any successor form developed for such purpose) or its electronic equivalent for over-the-counter drugs, the responsible person shall not have to submit a duplicative serious adverse event report under this section. Serious ad-
verse event reports under this section shall be made available on the Internet website of the Food and Drug Administration.

“(2) New Medical Information.—The responsible person shall submit to the Food and Drug Administration any new medical information, related to a submitted serious adverse event report that is received by the responsible person within 1 year of the initial report, and shall submit such information not later than 15 business days after the new information is received by the responsible person.

“(4) EXEMPTION.—The Food and Drug Administration may establish by regulation an exemption to any of the requirements under this subsection if the Food and Drug Administration determines that such exemption is supported by adequate evidence and would have no adverse effect on public health.

“(d) REQUIREMENTS.—

“(1) IN GENERAL.—Each serious adverse event report under this section shall be submitted to the Food and Drug Administration using an electronic system of the Food and Drug Administration. The Food and Drug Administration shall make such electronic system available not later than 1 year after the date of enactment of the Cosmetic Safety Enhancement Act of 2018.

“(D) contact information for the individual reporting the serious adverse event.

“(4) Responsibility to gather information.—After an individual initiates the reporting of a serious adverse event, the responsible person for the cosmetic product shall actively gather all of the

“(5) NO ADVERSE EVENTS TO REPORT.—The
Food and Drug Administration shall provide an op-

by indicating no such events on the annual registra-
tion form.

“(e) LIMITATION WITH RESPECT TO ADVERSE
EVENT REPORTS.—The submission of an adverse event
report in compliance with subsection (a) shall not con-
stitute an admission that the cosmetic involved caused or
contributed to the adverse event.

“(f) CONTACT INFORMATION.—The label of a cos-
metic shall bear the domestic telephone number or elec-

label include both the telephone number and electronic
contact information, through which the responsible person
may receive a report of an adverse event.

person shall maintain records related to each report of an
adverse event received by the responsible person for a period of 6 years.

duly designated by the Food and Drug Administration, permit such officer or employee, upon presentation of appropriate credentials and written notice to such person, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy—

“(1) all records maintained under section 611 and in accordance with the rules promulgated by the Food and Drug Administration under section 610, as applicable;

“(2) all records maintained under section 609;

and

“(3) except as provided in subsection (b), all other records, if the Food and Drug Administration—

“(A) has a reasonable belief that the cosmetic—

“(i) is adulterated;

“(ii) has caused a reportable serious adverse event; or

“(iii) contains an ingredient that substantial new scientific information shows may be unsafe when present in a cosmetic; and

“(B) provides written notice of the basis for the Food and Drug Administration’s rea-
sonable belief described in subparagraph (A), as applicable.

“(b) EXCLUSIONS.—No inspection authorized by this section shall extend to financial data, pricing data, per-
sonnel data (other than data as to qualification of tech-

“(b) PREHEARING ORDER TO MANDATORILY CEASE DISTRIBUTION AND GIVE NOTICE.—

“(1) IN GENERAL.—If the responsible person refuses to or does not voluntarily cease distribution or recall such cosmetic within the time and in the manner prescribed by the Food and Drug Administration, the Food and Drug Administration may order such person to—

“(A) IN GENERAL.—If a cosmetic covered by a recall order issued under paragraph (1)(B) has been distributed to a warehouse-based third party logistics provider without providing such provider sufficient information to know or reasonably determine the precise identity of such cosmetic covered by a recall order that is in its possession, the notice provided by the responsible person subject to the order issued under paragraph (1)(B) shall include such information as is necessary for the warehouse-based, third-party logistics provider to identify the cosmetic.
“(B) Rules of construction.—Nothing in this paragraph shall be construed—

“(i) to exempt a warehouse-based, third-party logistics provider from the requirements of this chapter, including the requirements of this section and section 612; or

“(ii) to exempt a warehouse-based, third-party logistics provider from being the subject of a mandatory recall order.

“(3) Determination to limit areas affected.—If the Food and Drug Administration requires a responsible person to cease distribution under paragraph (1)(A) of a cosmetic, the Food and Drug Administration may limit the size of the geographic area and the markets affected by such cessation if such limitation would not compromise the public health.

“(c) Hearing on order.—The Food and Drug Administration shall provide the responsible party subject to an order under subsection (b) with an opportunity for an informal hearing, to be held as soon as possible, but not later than 2 days after the issuance of the order, on the actions required by the order and on why the cosmetic that is the subject of the order should not be recalled.

“(e) CONTACT INFORMATION.—The label on each cosmetic shall bear the domestic telephone number or electronic contact information, and it is encouraged that the label include both the telephone number and electronic contact information, that consumers may use to contact the responsible person with respect to adverse events. The contact number shall provide a means for consumers to obtain additional information about ingredients in a cosmetic, including the ability to ask if a specific ingredient
may be present that is not listed on the label, including
whether a specific ingredient may be contained in the fra-
grance or flavor used in the cosmetic. The responsible per-
son whose contact information appears on the cosmetic
product label is responsible for providing such information

through appropriate restrictions, which may in-
clude—

“(A) warnings;

“(B) limitations on the amount or con-

“(A) not involve the use of an animal to
test a chemical substance for safe use in cos-
metics; or

“(B) use fewer animals than conventional
animal-based tests for safe use in cosmetics

Register notice establishing fees, in subsection
(e)(1), for fiscal year 2022. If the Food and Drug
Administration has carryover balances for such ac-
tivities in excess of 3 months of such operating re-
serves, the adjustment under this paragraph shall
not be made.

“(3) WORKLOAD ADJUSTMENT.—

“(A) IN GENERAL.—For fiscal year 2018

and each subsequent fiscal year, after fee reve-
uxes established in subsection (c)(3)(B) are ad-
justed for a fiscal year for inflation in accord-
ance with paragraph (1), the fee revenues shall
be adjusted further for each fiscal year to re-
flect changes in the workload of the Food and
Drug Administration for actual changes in
workload volume due to the process of reviewing
cosmetic ingredients or nonfunctional constitu-
ents not listed under section 608(b).

“(B) DETERMINATION OF ADJUSTMENT.—
The adjustment shall be determined by the
Food and Drug Administration based on the
workload in the most recent 1-year period for
which workload data are available. The Food
and Drug Administration shall publish in the
Federal Register the fee revenues and fees re-
sulting from the adjustment and the supporting
methodologies.

“(C) MINIMUM REVENUES.—The adjust-
ment shall not result in fee revenues for a fiscal
year that are less than the sum of the amount
under subsection (c)(3)(B), as adjusted for in-
flation under paragraph (1).

“(e) LIMITATIONS.—
“(1) IN GENERAL.—With respect to the amount
that, under the salaries and expenses account of the
Food and Drug Administration, is appropriated for
a fiscal year for the cosmetics program in the Center
for Food Safety and Applied Nutrition and related
field activities, fees may not be assessed under subsection (a) for the fiscal year unless the amount so appropriated for the fiscal year (excluding the amount of fees appropriated for the fiscal year), is equal to or greater than that assessed for fiscal year 2018, multiplied by the adjustment factor applicable to the fiscal year involved. If the amount so appropriated prevents the Food and Drug Administration from assessing fees under subsection (a), the Food and Drug Administration is not required to carry out any activities described in section 608 during that fiscal year.

“(2) Authority.—If the Food and Drug Administration does not assess fees under subsection (a) during any portion of a fiscal year because of paragraph (1) and if at a later date in such fiscal year the Food and Drug Administration may assess such fees, the Food and Drug Administration may assess and collect such fees, without any modification in the rate, for registration under section 605 at any time in such fiscal year.

“(f) Crediting and Availability of Fees.—

“(1) In general.—Fees authorized under subsection (a) shall be collected and available for obligation only to the extent and in the amount provided
in advance in appropriations Acts. Such fees are authorized to remain available until expended. Such sums as may be necessary may be transferred from the Food and Drug Administration salaries and expenses appropriation account without fiscal year limitation to such appropriation account for salaries and expenses with such fiscal year limitation. The sums transferred shall be available solely for cosmetic safety activities.

“(2) COLLECTIONS AND APPROPRIATIONS ACTS.—The fees authorized by this section—

“(A) IN GENERAL.—Subject to subparagraphs (C) and (D), the fees authorized by this section shall be collected and available in each fiscal year in an amount not to exceed the amount specified in appropriation Acts, or otherwise made available for obligation for such fiscal year.

“(B) USE OF FEES AND LIMITATION.—The fees authorized by this section shall be collected and available only to defray the costs of cosmetic safety activities.

“(C) FEE COLLECTIONS DURING FIRST PROGRAM YEAR.—Until the date of enactment of an Act making appropriations through Sep-
tember 30, 2018, for the salaries and expenses account of the Food and Drug Administration, fees authorized by this section for fiscal year 2018 may be collected and shall be credited to such account to remain available until expended. Fees collected under this subparagraph shall be considered discretionary for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

“(D) STARTUP COSTS.—Until one year after the Food and Drug Administration begins collecting user fees under subsection (a), any amounts available to the Center for Food Safety and Applied Nutrition (excluding user fees) may be available and allocated as needed to pay the costs of cosmetic regulation activities described in this Act.

“(E) REIMBURSEMENT OF STARTUP AMOUNTS.—

“(i) IN GENERAL.—Any amounts allocated for the startup period pursuant to subparagraph (B)(ii) shall be reimbursed through any appropriated fees collected under subsection (a), in such manner as the Secretary determines appropriate to
ensure that such allocation results in no net change in the total amount of funds otherwise available, for a period not to exceed one year after the Food and Drug Administration begins collecting user fees under subsection (a), for Food and Drug Administration programs and activities (other than cosmetic regulation activities) for such period.

“(ii) TREATMENT OF REIMBURSED AMOUNTS.—Amounts reimbursed under clause (i) shall be available for the programs and activities for which funds allocated for the startup period were available, prior to such allocation, until 1 year after the Food and Drug Administration begins collecting user fees under subsection (a), notwithstanding any otherwise applicable limits on amounts for such programs or activities for a fiscal year.

“(3) AUTHORIZATION OF APPROPRIATIONS.—For each of fiscal years 2018 through 2022, there are authorized to be appropriated for fees under this section $20,600,000, as adjusted by subsection (d).
“(g) EFFECT OF FAILURE TO PAY FEES.—The Food and Drug Administration shall not consider a registration submitted to be complete until such fee under subsection (a) is paid. Until the fee is paid, the registration is incomplete and the responsible party is deemed to have failed to register in accordance with section 605.

“(h) FALSE STATEMENTS.—Any statement or representation made to the Food and Drug Administration shall be subject to section 1001 of title 18, United States Code.

“(i) COLLECTION OF UNPAID FEES.—In any case where the Food and Drug Administration does not receive payment of a fee assessed under subsection (a), such fee shall be treated as a claim of the United States Government subject to subchapter II of chapter 37 of title 31, United States Code.

“(j) CONSTRUCTION.—This section may not be construed to require that the number of full-time equivalent positions in the Department of Health and Human Services, for officers, employees, and advisory committees not engaged in cosmetic activities, be reduced to offset the number of officers, employees, and advisory committees so engaged.

“(k) RECORDS.—Each responsible party required to register under section 605 shall retain all records nec-
necessary to demonstrate gross annual sales for at least 2 fiscal years after such information is reported in its registration. Such records shall be made available to the Food and Drug Administration for review and duplication upon request of the Food and Drug Administration.

“(l) SUNSET DATE.—Section 744 of the Federal Food, Drug, and Cosmetic Act does not authorize the assessment or collection of a fee for registration under section 605 of such Act occurring after fiscal year 2022. The amendments made by this title cease to be effective on October 1, 2022.”
