Congressman Raúl Grijalva  
Chairman, House Natural Resources Committee  
1324 Longworth House Office Building  
Washington, DC 20515

Re: Delivery of signatures regarding the Endangered Species Act

Dear Chairman Raúl Grijalva:

Please accept the signatures of over 500,000 signatures of community members from across the country who have signed petitions organized by a coalition of 10 organizations advocating to protect and restore the Endangered Species Act.

As demonstrated by these petition actions, Americans are gravely concerned about the Trump administration's roll-back of the Endangered Species Act. The PAW and FIN Conservation Act of 2019 (H.B. 4348 and S. 2491) will reverse these harmful new rules and we urge you to continue working to advance this legislation. If you have any questions about these signatures, our coalition can be reached via email at [ntebo.mokuena@dailykos.com](mailto:ntebo.mokuena@dailykos.com) and [tthornton@endangered.org](mailto:tthornton@endangered.org).

Sincerely,

*Center for Biological Diversity, Chesapeake Climate Action Network, Daily Kos, Endangered Species Coalition, Food & Water Action, Greenpeace USA, League of Conservation Voters, MoveOn, Seeding Sovereignty, and 198 methods*
