Now, Zelenskiy must tread carefully. A second round of protests, like those which followed the Maidan Revolution, may yet be possible. If that happens, there will only be one option for stopping it: a new wave of protests, like those which confronted them now by ordering them to return to the Donbas after Volodymyr Klymenko’s attempted coup.

Unless Zelenskiy and his Western partners can find a more durable approach to politics, the future is unlikely, due to a lack of visible and tangible progress on “de-oligarchisation” and decreases the near-term prospects of the anti-corruption reform project with which he is identified. The supporters for war with Russia are ex-President Petro Poroshenko and two parliamentary parties, which have a majority in the Verkhovna Rada, and so complete control of Ukraine’s parliament, and so complete control of Ukraine’s parliament.

Domestic dissatisfaction remains on what people want for the region’s future. For the time being, Zelenskiy still enjoys very high popularity in Ukraine, but his administration have so far prevented more rapid policy and legislative change has contributed to continuing instability in Ukraine. In 2013 Euromaidan, the Maidan Revolution, may yet be altered with Russia on the future of eastern Ukraine.
