

BIOGRAPHY
OF
ERIN RACHWAL, MSW, LCSW

Erin (and Rick Rachwal), from Pewaukee, Wisconsin who lost our son to a fentanyl poisoning on Valentine's Day 2021.

As a result of this loss, we founded the Love, Logan Foundation in 2022 to spread awareness about the fentanyl crisis.

We have one other son Caden, who is now 20 years old. Caden was 14 months younger than Logan.

In addition to being the co-founder of Love, Logan Foundation, I am a Licensed Clinical Marriage and Family Therapist and have an extensive background in mental health working with individuals, families and children in private practice.

THE FENTANYL CRISIS IN AMERICA: INACTION IS NO LONGER AN OPTION
