PUBLIC BUILDING RESOLUTIONS

TITLE 40. UNITED STATES CODE. (PUBLIC BUILDINGS,  
PROPERTY, AND WORKS)

CHAPTER 12. CONSTRUCTION, ALTERATION, AND ACQUISITION OF  
PUBLIC BUILDINGS

§ 606. APPROVAL OF PROPOSED PROJECTS BY CONGRESS

(a) Limitation of funds; transmission to Congress of prospectus of proposed project  
In order to insure the equitable distribution of public buildings throughout the United States with due regard for the comparative urgency of need for such buildings, except as provided in section 603 of this title, no appropriation shall be made to construct, alter, purchase, or to acquire any building to be used as a public building which involves a total expenditure in excess of \$1,500,000 if such construction, alteration, purchase, or acquisition has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriations shall be made to lease any space at an average annual rental in excess of \$1,500,000 for use for public purposes if such lease has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriation shall be made to alter any building, or part thereof, which is under lease by the United States for use for a public purpose if the cost of such alteration would exceed \$750,000 unless such alteration has been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. For the purpose of securing consideration for such approval, the Administrator shall transmit to the Congress a prospectus of the proposed facility, including (but not limited to)—

- (1) a brief description of the building to be constructed, altered, purchased, acquired, or the space to be leased under this chapter;
- (2) the location of the building or space to be leased and an estimate of the maximum to the United States of the facility to be constructed, altered, purchased, acquired, or the space to be leased;
- (3) a comprehensive plan for providing space for all Government officers and employees in the locality of the proposed facility or the space to be leased, having due regard for suitable space which may continue to be available in existing Government—owned or occupied buildings, especially such of those buildings as enhance the architectural, historical, social, cultural, and economic environment of the locality;
- (4) with respect to any project for the construction, alteration, purchase, or acquisition of any building, a statement by the Administrator that suitable space owned by the Government is not available and that suitable rental space is not available at a price commensurate with that to be afforded through the proposed action;
- (5) a statement by the Administrator of the economic and other justifications for not acquiring or purchasing a building or buildings identified to the Administrator pursuant to section 611(c) of this title as suitable for the public building needs of the Federal Government; and (6) a statement of rents and other housing costs currently being paid by the Government for Federal agencies to be housed in the building to be constructed, altered, purchased, acquired, or the space to be leased.

(b) Increase of estimated maximum cost—

The estimated maximum cost of any project approved under this section as set forth in any prospectus may be increased by an amount equal to the percentage increase, if any, as determined by the Administrator, in construction, or alteration costs, as the case may be, from the date of transmittal of such prospectus to Congress, but in no event shall the increase authorized by this subsection exceed 10 per centum of such estimated maximum cost.

(c) Rescission of approval for failure to make appropriations for project—

In the case of any project approved for construction, alteration, or acquisition by the Committees on Public Works of the Senate and of the House of Representatives, respectively, in accordance with subsection (a) of this section, for which an appropriation has not been made within one year after the date of such approval, either the Committee on Public Works of the Senate or the Committee on Public Works of the House of Representatives, may rescind, by resolution, its approval of such project at any time thereafter before such an appropriation has been made.

(d) Emergency leases by the Administrator—Nothing in this section shall be construed to prevent the Administrator from entering into emergency leases during any period declared by the President to require such emergency leasing authority, except that no such emergency lease shall be for a period of more than 180 days without approval of a prospectus for such lease in accordance with subsection (a) of this section.

(e) Limitation on leasing certain space

(1) General rule

The Administrator may not lease any space to accommodate—

(A) computer and telecommunications operations;

(B) secure or sensitive activities related to the national defense or security, except in any case in which it would be inappropriate to locate such activities in a public building or other facility identified with the United States Government; or (C) a permanent courtroom, judicial chamber, or administrative office for any United States court; if the average rental cost of leasing such space would exceed \$1,500,000.

(2) Exception—

The Administrator may lease any space with respect to which paragraph (1) applies if the Administrator first determines, for reasons set forth in writing, that leasing such space is necessary to meet requirements which cannot be met in public buildings and submits such reasons to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(f) Dollar amount adjustment—

Any dollar amount referred to in this section and section 603(b) of this title may be adjusted by the Administrator annually to reflect a percentage increase or decrease in construction costs during the preceding calendar year, as determined by the composite index of construction costs of the Department of Commerce. Any such adjustment shall be expeditiously reported to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

## TITLE 40. UNITED STATES CODE. (PUBLIC BUILDINGS, PROPERTY, AND WORKS)

### CHAPTER 12—CONSTRUCTION, ALTERATION, AND ACQUISITION OF PUBLIC BUILDINGS

#### § 610. REPORT TO CONGRESS; UNCOMPLETED PROJECTS; BUILDING PROJECT SURVEYS

(a) Upon the request of either House of Congress, or any committee thereof, and within a reasonable time, the Administrator shall submit a report showing the location, space, cost, and status, of each public building the construction, alteration, or acquisition of which is to be under authority of this chapter and which was uncompleted as of the date of the request, or as of such other date as the request may designate.

(b) The Administrator and the United States Postal Service are Authorized and directed to make such building project surveys as may be requested by resolution by either the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, and within a reasonable time shall make a report thereon to the Congress.

Such report shall contain all other information required to be included in a prospectus of the proposed public building project under section 606(a) of this title.

## CONSTRUCTION—FBI HEADQUARTERS CONSOLIDATION NATIONAL CAPITAL REGION

*Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives, that pursuant to 40 U.S.C. §3307, \$834 million in appropriations are authorized for the site acquisition, design, management and inspection, and construction of a new federally—owned headquarters facility for the Federal Bureau of Investigation of not more than 2.1 million rentable square feet in the National Capital Region for the General Services Administration, for which a prospectus is attached to and included in this resolution.*

*Provided, the total funds made available through appropriations, including funds transferred to the “Federal Bureau of Investigation, Construction” account, do not exceed \$2.11 billion (excluding the value realized from the exchange of the J. Edgar Hoover building, outfitting, and decommissioning costs).*

*Provided further, the Administrator considers transportation impacts, including National Capital Planning Commission recommendations on parking and proximity to metro rail.*

*Provided further, the Administrator considers the total costs to the government for relocations, site preparation, and site acquisition.*

*Provided further, that such appropriations are authorized only for a project that results in a fully consolidated FBI Headquarters facility.*

*Provided further, that the Administrator of General Services shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the construction of a new headquarters for the Federal Bureau of Investigation (FBI). The report transmitted under this provision shall include a summary of the material provisions of the construction and full consolidation of the FBI in a new headquarters facility, including but not limited to, a schedule, the square footage, proposed costs to the Government, and a description of all buildings and infrastructure needed to complete the project.*

*Provided further, that the Administrator shall not delegate to any other agency the authority granted by this resolution.*

*Provided further, that the Administrator’s authority to make an award of this project expires two years from the date of the adoption of this resolution.*
