

## Current US Operation

**GVW Limit: 80,000 lbs.**

**Restrictive weight  
limitations lead to  
underutilized capacity**

## Current Canada Operation

**GVW Limit: 102,500 lbs.**

**Increased limit  
allows for greater  
carrying capacity**

**Increasing the vehicle weight limit allows us to put more product in our trailers  
for each shipment, reducing the need for as many vehicles**
