Xerox

DIVISION C - DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2016

The agreement on the Department of Defense Appropriations Act, 2016 incorporates some of the provisions of both the House-passed and the Senate-reported versions of the bill. The language and allocations set forth in House Report 114-139 and Senate Report 114-63 shall be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The agreement delineates that, for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119), and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms "program, project, and activity" for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2016, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term "program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2017, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the "M-1" and "O-1" which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested

by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2017.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). For operation and maintenance accounts, the Secretary of Defense

shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008. The dollar threshold for reprogramming funds shall remain at \$10,000,000 for military personnel; \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defensewide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1), an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING ADJUSTMENTS

The funding increases outlined in the project level tables for each appropriation account shall be provided only for the specific purposes indicated in the tables, and are to

be competitively awarded or provided to programs that have received competitive awards in the past. Programs for which the funding provided is less than the requested amount shall be reduced for the purposes specified in the project level tables and may be considered congressional special interest items as defined in titles I, II, III, and IV of this statement. The reductions to special interest items shall be restored only using the prior approval reprogramming process. The Under Secretary of Defense (Comptroller) shall ensure appropriate distribution of this guidance.

APPROPRIATION MATTERS LIAISON OFFICERS

The agreement continues to support appropriations liaison officers for the Department of Defense and the Services. These appropriations liaison officers provide critical and relevant budget-related information to the House and Senate Appropriations Committees in a timely manner and with the authority to communicate directly with their Service Secretaries. It is imperative to maintain this liaison structure to achieve the highest level of communication and trust between the Department of Defense and the House and Senate Appropriations Committees. Therefore, the agreement retains a provision, carried in previous years, that prohibits the use of funds to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the Service headquarters of one of the armed forces into a legislative affairs or legislative liaison office.

OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM

After more than a decade of war, the United States military and Intelligence
Community remain engaged in responding to crises, conflicts, and instability across the
globe. The rise of the Islamic State of Iraq and the Levant (ISIL), the recent attacks in
Paris, continued operations in Afghanistan, the presence of terrorist groups like alShabaab and Boko Haram in North and Central Africa, the continued presence of alQaeda in the Middle East and northern Africa, ongoing destabilizing actions by Iran, the
recent crisis and instability in Yemen, Libya, and the Levant, and Russian aggression in
Ukraine are just some of the stark reminders that it is more important than ever to provide
the funding and resources necessary to ensure that the military and Intelligence
Community are able to detect and disrupt developing threats and are ready to respond to
an unknown and unforeseen future event. For these reasons, the agreement provides the
military and Intelligence Community sufficient resources to support ongoing operations
and the flexibility to respond to future unknown crises.

To further address the Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) requirements, the agreement provides increased funding over fiscal year 2015 levels for the military and Intelligence Community. The recommendation provides an additional \$1,277,915,000 for Operation Freedom's Sentinel in Afghanistan and additional special transfer authority to maintain the current troop level of 9,800 through the end of fiscal year 2016. Further, as proposed by the Secretary of Defense to meet increased OCO/GWOT requirements, the agreement moves funding from the base appropriation to the OCO/GWOT appropriation to provide additional funding for the Army, Navy, Marine Corps, and Air Force to conduct counter-ISIL operations, to support operations in Afghanistan, to increase theater security missions, and to maintain a steady-state presence throughout the globe.

In addition, the agreement provides additional funding to restore readiness for the Services and to maintain capabilities of the Intelligence Community to ensure that they are ready to address current and emerging global challenges, both foreseen and unforeseen, at a moment's notice. These investments will continue the process of restoring and enhancing military readiness and Intelligence Community capabilities.

ISRAELI MISSILE DEFENSE PROGRAMS

The agreement recommends an additional \$329,800,000 for Israeli missile defense programs, as requested by the Government of Israel. It is directed that not more than \$90,000,000 may be obligated or expended for long lead items in support of David's Sling production activities until the Secretary of Defense provides to the congressional defense committees a joint United States-Israeli production agreement that addresses, at a minimum, Israeli requirements, production plans, the role of United States and Israeli industry partners, and the proposed use of United States funding. Further, it is directed that not more than \$15,000,000 may be obligated or expended for long lead items in support of Arrow upper tier production activities until the Secretary of Defense provides to the congressional defense committees a joint United States-Israeli production agreement that addresses, at a minimum, Israeli requirements, production plans, the role of United States and Israeli industry partners, and the proposed use of United States funding. It is noted that the Department of Defense has processes in place to transfer funding for long lead items for missile defense programs through an exchange of letters that ensure appropriate oversight over subject funds prior to conclusion of production agreements.

TITLE I - MILITARY PERSONNEL

The agreement provides \$129,228,658,000 in Title I, Military Personnel. The agreement on items addressed by either the House or the Senate is as follows:

SUMMARY OF MILITARY PERSONNEL END STRENGTH

		Fiscal Year 2016

REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2016 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

NOTIFICATION OF RESERVE COMPONENTS

The reserve components provide an operational capability and strategic depth in support of the national defense strategy. Decisions to utilize these forces must adhere to judicious and prudent criteria. As such, the agreement directs the Secretary of Defense to continue following the Department's longstanding policy to instruct the Services to adequately notify, in writing, members of the reserve components who are called or ordered to active duty, under section 12302(a) of title 10, United States Code. The notification must include the expected period during which the member will be mobilized, including the authorization of an alert notification up to 24 months prior to the

mobilization date, and a minimum of 30 days notification prior to involuntary mobilization to support emergent requirements.

SEXUAL ASSAULT PREVENTION AND RESPONSE PROGRAM

The agreement fully funds the budget request of \$263,325,000 for Sexual Assault Prevention and Response programs at the Service level and provides an additional \$25,000,000 for the Defense Human Resources Activity in the Operation and Maintenance, Defense-Wide appropriation for the Sexual Assault Special Victims' Counsel Program across the Services.

BASIC ALLOWANCE FOR HOUSING

The practice of using annual housing market surveys to calculate basic allowance for housing (BAH) rates neglects the specific challenges of rural states and regions, where housing areas adjacent to military facilities may not reflect the average cost of housing in more populous nearby communities, making it more difficult for servicemembers to find affordable housing within the BAH rate. Therefore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the analytics and factors that are considered in determining BAH rates for installations in rural states and regions.

MILITARY PERSONNEL, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

REMOTELY PILOTED AIRCRAFT

Language in House Report 114-139 directed the Secretary of the Air Force to submit a report to the congressional defense committees which would assess the feasibility of training enlisted personnel as remotely piloted aircraft (RPA) pilots, include an updated list of any pay and incentives that these pilots are eligible to receive, and provide a breakdown of how the pilots have populated the community. In July 2015, the Air Force presented an RPA Get-Well Plan. In lieu of the reporting requirement in House Report 114-139, the Secretary of the Air Force is directed to brief the congressional defense committees not later than 90 days after the enactment of this Act on the steps the Air Force has taken to increase RPA training throughput, utilize reserve component RPA capabilities, contract elements of the RPA program, and implement RPA-related incentive pays.

NATIONAL GUARD PERSONNEL, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

REMOTELY PILOTED AIRCRAFT MISSIONS

Language in House Report 114-139 directed the Secretary of Defense to submit a report to the congressional defense committees on the cost-effectiveness of using Air National Guard units to conduct remotely piloted aircraft (RPA) missions along the United States – Mexico border in support of Department of Homeland Security (DHS) missions. The Committees have subsequently received briefings on the utilization and capabilities of Air National Guard and Air Force Reserve RPA units. In lieu of the reporting requirement in House Report 114-139, the agreement directs the Secretary of the Air Force to provide, not later than 90 days after the enactment of this Act, a briefing to the House and Senate Appropriations Committees on capabilities that Air Force reserve component RPA units could provide in support of DHS border security missions and the demand from DHS or other Departments for such capabilities.

REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2016 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Army:

Maneuver units
Modular support brigades
Land forces operations support
Force readiness operations support
Land forces depot maintenance
Base operations support
Facilities sustainment, restoration, and modernization

Navy:

Aircraft depot maintenance Ship depot maintenance Facilities sustainment, restoration, and modernization

Marine Corps:

Depot maintenance
Facilities sustainment, restoration, and modernization

Air Force:

Primary combat forces
Combat enhancement forces
Combat communications
Facilities sustainment, restoration, and modernization

Air Force Reserve: Depot maintenance

Air National Guard: Depot maintenance

Additionally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard: Other personnel support/recruiting and advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

During fiscal year 2016, the Service Secretaries are directed to submit written notification and justification to the congressional defense committees not later than 15 days prior to implementing transfers in excess of \$15,000,000 out of the following budget sub-activities:

Navy:

Mission and other flight operations Mission and other ship operations

Air Force:

Operating forces depot maintenance Mobilization depot maintenance Training and recruiting depot maintenance Administration and service-wide depot maintenance These transfers may be implemented 15 days after a congressional notification unless an objection is received from one of the congressional defense committees.

OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

OPERATION AND MAINTENANCE MILITARY INTELLIGENCE PROGRAM BUDGET JUSTIFICATION MATERIAL

The agreement notes that the current budget justification material submitted for the operation and maintenance portion of the Military Intelligence Program (MIP) and the exhibits for the Security Programs sub-activity groups (SAGs) in the Operation and Maintenance Army, Navy, Marine Corps, and Air Force accounts do not provide full visibility into requested funding which limits congressional oversight. Therefore, the Secretary of Defense is directed to include a new exhibit in the MIP justification books for each Service, the Special Operations Command, and the defense agencies under the "Resources Exhibit" tab. The exhibit shall be titled "Operation and Maintenance

Resources by Project"; be broken out into six separate tables: the prior year base actual, the current year base estimate, the budget year base request, the prior year Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) actual, the current year OCO/GWOT estimate, and the budget year OCO/GWOT request; include each MIP project on a separate row; include each budget line item (SAG for the Service appropriation and defense agency for the defense-wide appropriation) in a separate column; show dollars in thousands in each appropriate cell of the table (lining up projects with SAGs); and include totals for each row and column to allow analysis of the totals by appropriation, project, and SAG.

Each Service operation and maintenance account includes a SAG titled "Security Programs" which funds both MIP and National Intelligence Programs (NIP) as well as other non-MIP and non-NIP programs. Since the funding requested is largely for classified programs, the budget justification materials do not provide a level of detail in the OP-5 exhibit as is normally required by the Financial Management Regulation (FMR). Thus, the Secretary of Defense is directed to provide classified OP-5 and OP-32 budget exhibits at the time of the budget submission for each of the Security Program SAGs. This OP-5 will provide the non-NIP funding amount requested in the SAG and a summary and justification for changes in the level of resources required for each SAG as required by the FMR in the Volume 2, Chapter 3 Exhibit OP-5 Instructions and Detail by SAG. This material should be submitted for both the base budget request and the OCO/GWOT request.

The new tables and budget exhibits shall be included as a part of the budget submission for fiscal year 2018. For fiscal year 2017, the Services and defense agencies are directed to work with the House and Senate Appropriations Committees to provide this information during the budget review process. This language replaces the language included under this heading in House Report 114-139.

SIZE OF THE CIVILIAN WORKFORCE

The Department of Defense is taking steps to right-size the military, civilian, and contractor workforces. While the agreement supports a strong civilian workforce and recognizes that much of this workforce performs critical national security and readiness functions, concern remains regarding the size and cost of headquarters and administrative functions and the corresponding size of the civilian staff, particularly at the Pentagon.

As required by Section 905 of the National Defense Authorization Act for Fiscal Year 2015, the Secretary of Defense is currently conducting a systematic determination of the personnel requirements for headquarters organizations, including at the Pentagon, and the support organizations that perform headquarters-related functions, and is implementing a periodic review and analysis of personnel requirements. Further, as part of its annual budget documentation, the Secretary of Defense provides a report addressing the size of the three workforces. The Secretary of Defense is directed to provide a briefing to the House and Senate Appropriations Committees on the findings of the personnel requirements review referenced above, as well as the annual report on the size of the workforce, not later than 30 days after each report's release.

Section 904 of the National Defense Authorization Act for Fiscal Year 2014, as amended, requires the Secretary of Defense to submit an annual report detailing the streamlining of Department of Defense headquarters. The agreement recognizes that future reports will include an updated baseline number for military, civilian, and contractor workforces for headquarters level of detail, including support organizations, as well as results of the review and further implemented and proposed reductions. The Secretary of Defense is directed to provide an annual briefing to the House and Senate Appropriations Committees on the findings of the report not later than 30 days after the report's release.

CIVILIAN PERSONNEL AND PAY MANAGEMENT

Accurate visibility and budgeting is critical to making fiscally sound decisions regarding the size and compensation of the civilian personnel workforce. The Services consistently overestimate the number of civilians that will be employed during a fiscal year while underestimating the civilian personnel funding requirement. Therefore, the agreement includes reductions for overestimating civilian full time equivalent (FTE) levels and streamlining management headquarters for fiscal year 2016.

Additionally, the agreement directs the Department of Defense Inspector General (DOD IG) to provide a report to the congressional defense committees not later than 180 days after the enactment of this Act that issues recommendations to improve the management of the civilian compensation program and civilian FTE levels. As part of the analysis, the agreement directs the DOD IG to explore the factors influencing average salary and provide suggestions for how to better control its volatility. Also, the DOD IG shall examine how to standardize the types of growth included in pay rates versus program growth across the Services. Finally, the report shall examine steps the Department of Defense should take to formulate a civilian compensation budget to more accurately capture the true cost of the civilian workforce. This language replaces the reporting requirement included under the heading "Civilian Personnel and Pay Management" in House Report 114-139 and under the heading "Civilian Compensation" in Senate Report 114-63.

CIVILIAN FURLOUGHS

In fiscal year 2013, the Secretary of Defense furloughed most Department of Defense civilian employees for up to six days due to budgetary shortfalls primarily

caused by sequestration. The negative impact on productivity, morale, and readiness substantially outweighed the savings generated from civilian furloughs. No furloughs were implemented in either fiscal year 2014 or fiscal year 2015, and it is assumed that the enactment of this Act will eliminate any need to furlough civilian employees in fiscal year 2016.

MAINTENANCE OF REAL PROPERTY

The agreement directs the Secretary of Defense to conduct no maintenance or improvements to Department of Defense real property with a zero percent utilization rate according to the Department's real property inventory database, except in the case of maintenance of an historic property, as required by the National Historic Preservation Act (16 U.S.C. 470 et seq.), maintenance to prevent a negative environmental impact as required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), or to address health and safety requirements.

AUDITABILITY

The Secretary of Defense is working to achieve auditability by the end of fiscal year 2017. The Secretary of Defense is directed to provide a briefing to the House and Senate Appropriations Committees on the Financial Improvement and Audit Readiness Plan Status Report not later than 30 days after the report's next publication.

PHYSICAL SECURITY ENHANCEMENTS AT MILITARY FACILITIES

Recent domestic and international incidents underscore the need to remain vigilant regarding security at military facilities and installations. After the July 2015 shootings in Chattanooga, Tennessee, the Secretary of Defense issued a directive that emphasized improving physical and procedural security and improving mass warning and alert notification capabilities. The Mission Assurance Coordination Board (MACB) is tasked with coordinating these activities across the Services, the National Guard Bureau, and the combatant commands to ensure the safety of Department of Defense personnel. To keep apprised of progress concerning these efforts, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act describing the completed and planned actions overseen by the MACB and identifying associated funding requirements.

The recommendation also includes \$80,300,000 for security upgrades to military Service recruiting centers following the Chattanooga attacks. The requirements range from improving closed circuit camera monitoring to increasing ballistic internal protection. The Army is the executive agent for recruiting centers and will oversee the necessary security upgrades for all recruiting centers. Therefore, the agreement transfers funding from the Services' operation and maintenance accounts to the Operation and Maintenance, Army account for this purpose.

ENERGY INDEPENDENCE AND SECURITY ACT

The agreement does not include a provision included in the House-passed version of H.R. 2685 that referenced the Energy Independence and Security Act of 2007. It is noted that the enforcement of section 526 of the Energy Independence and Security Act of 2007

may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out their respective missions should be minimized to the greatest extent possible.

OPERATION AND MAINTENANCE, ARMY

The agreement on items addressed by either the House or the Senate is as follows:

OPERATION AND MAINTENANCE, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

AIR FORCE DEPOT MAINTENANCE AND CONTRACTOR LOGISTICS SUPPORT

While the Air Force has improved its depot maintenance budget documentation, concerns remain that requesting funding for contractor logistics support (CLS) in the depot maintenance sub-activity group (SAG) limits visibility into the execution of this funding. Separating CLS and Performance Based Logistics (PBL) funding from depot maintenance funding would provide better congressional oversight and visibility. Therefore, the Secretary of the Air Force is directed to create new and separate SAGs specifically for CLS and PBL funding.

NET-CENTRIC ENTERPRISE SERVICES

Language in House Report 114-139 directed the Director of the Defense Information Systems Agency to submit a report describing and justifying the total costs associated with implementing an interim collaboration service until the Unified Capabilities collaboration services program commences in fiscal year 2017. However, the Department of Defense has already completed the transition to a new system of collaboration services. Therefore, the reporting requirement directed by House Report 114-139 is rescinded.

ENERGY EFFICIENCY FOR DEPARTMENT OF DEFENSE FACILITIES

Language in House Report 114-139 directed the Secretary of Defense to report to the congressional defense committees on the energy use and energy efficiency projects at the Pentagon and the ten largest Department of Defense facilities. In lieu of this reporting requirement, the agreement directs the Secretary of Defense to brief the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act on energy use at the Pentagon Reservation and the ten largest Department of Defense facilities. The briefing should include an accounting of the dates when energy audits and energy efficiency projects were conducted at these facilities and any potential savings associated with the installation of efficient lighting systems, including tubular Light-Emitting Diode (T-LED) lighting, at these facilities. Further, the Secretary of Defense is encouraged to revise the current specifications to permit T-LED lighting as an option within the Department's Unified Facilities Criteria.

MILITARY CHILD OUTREACH PROGRAMS

The agreement recognizes the importance of youth outreach programs that provide military children opportunities and mentorships as they cope with the turbulence that often accompanies military service. The Secretary of Defense and the Service Secretaries are encouraged to continue funding memberships for military children at installation-sponsored Boys and Girls Clubs of America and to expand these efforts to support memberships for military children who reside off-base and wish to join off-installation Boys and Girls Clubs of America.

MILITARY ONESOURCE

Military OneSource provides comprehensive information on military life to servicemembers and their families. However, the duplicative nature of the Department of Defense and the Department of Veterans Affairs efforts in this area is concerning. The Secretary of Defense, in consultation with the Secretary of Veterans Affairs, is directed to submit a report detailing the potential benefits of creating a joint program modeled after Military OneSource to the congressional defense committees not later than 120 days after the enactment of this Act.

PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the

Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

COMBAT AIR PATROL REVIEW

The agreement directs the Secretary of Defense to conduct a complete review of the required Combat Air Patrols deemed necessary to meet combatant commanders' requirements and to identify the necessary mix of intelligence, surveillance, and reconnaissance aircraft across the Air Force, Navy, Army, and Special Operations Command to meet such requirements. The Secretary of Defense is directed to provide a report on this review to the congressional defense committees not later than 180 days after the enactment of this Act.

JOINT STRIKE FIGHTER AUTONOMIC LOGISTICS INFORMATION SYSTEM

The Secretary of Defense is directed to submit a report to the congressional defense committees not later than May 15, 2016, which includes a certification that Autonomic Logistics Information System (ALIS) 2.0.2 system equipment has been delivered and supports an Air Force declaration of Initial Operating Capability (IOC) for the F-35A. If such certification cannot be made, the report shall provide an explanation for the failure to deliver the necessary equipment and a projected date for its delivery.

If certification is not made in the report, the Secretary is further directed to submit a new report to the congressional defense committees not later than five days following the new projected date for delivery which includes the certification previously described.

If such certification cannot be made, the report shall include an explanation for the failure to deliver the necessary equipment and an assessment of the potential impact to the Air Force declaration of IOC.

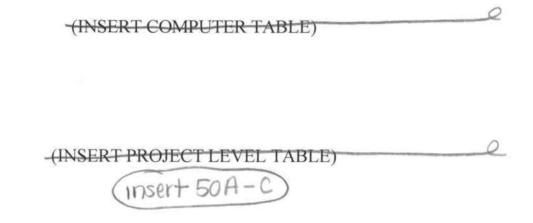

The Secretary of Defense is further directed to ensure that the fiscal year 2017 budget exhibits for the F-35 program clearly delineate the specific costs of ALIS procurement and research, development, test and evaluation in all applicable accounts.

AIRSPACE COMPLIANCE

The Secretary of Defense is directed to submit a report to the congressional defense committees not later than April 1, 2016 on the status of plans to modernize or replace digital avionics equipment for Department of Defense aircraft. This report shall be in a format similar to the report submitted in response to Section 152 of the National Defense Authorization Act for Fiscal Year 2015, updated to reflect any changes to such plans as of the date of submission of the fiscal year 2017 budget request. This language replaces the direction under the heading "Airspace Compliance" in Senate Report 114-63.

AIRCRAFT PROCUREMENT, ARMY

The agreement on items addressed by either the House or the Senate is as follows:

RQ-7 SHADOW UNMANNED AERIAL VEHICLE

The agreement includes \$81,444,000, the same as the request, for the RQ-7 Shadow unmanned aerial vehicle to upgrade the existing systems. Of this request, \$24,282,000 is to procure new additional payloads. Competition among multiple suppliers is important to reduce costs and improve performance. Therefore, the Secretary of the Army is directed to review the acquisition strategy for this upgrade to validate sufficient competition exists before awarding the contract.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

The agreement on items addressed by either the House or the Senate is as follows:

(INSERT COMPUTER TABLE)

(INSERT PROJECT LEVEL TABLE)

(INSERT PROJECT LEVEL TABLE)

MK-19 GRENADE MACHINE GUN MODIFICATIONS

The fiscal year 2016 budget request includes \$2,777,000 to improve the lethality and accuracy of MK-19 40mm grenade machine gun launchers. The MK-19 has been a reliable and effective weapon for many years, including extensive operational use in Iraq and Afghanistan. There remains concern with the Army plan to upgrade the weapon. The agreement directs the Secretary of the Army to submit a report to the congressional defense committees not later than the end of fiscal year 2016 or following the completion of the MOD 5 kit testing, whichever is earlier, that addresses the ability of the MOD 5 kit to meet requirements. In addition, the report shall address the Army plan to utilize commercial off-the-shelf technologies to upgrade and enhance the MK-19 in the future.

OTHER PROCUREMENT, ARMY

The agreement on items addressed by either the House or the Senate is as follows:

EUROPEAN FACILITIES COMMUNICATIONS

The agreement notes that capability gaps in communications security exist at United States Army Europe (USAREUR) facilities which rely on outdated radio infrastructure. The agreement directs the Secretary of the Army to provide the congressional defense committees the radio upgrade strategy for USAREUR not later than 120 days after the enactment of this Act.

AIRCRAFT PROCUREMENT, NAVY

The agreement on items addressed by either the House or the Senate is as follows:

(INSERT COMPUTER TABLE)

0.

(INSERT PROJECT LEVEL TABLE)

NAVY RESERVE COMBAT AIRCRAFT

The tactical aviation squadrons of the Navy Reserve fulfill the strategic reserve mission for the Navy and provide adversary support to active duty forces. The aging F/A-18A+ aircraft are projected to begin exceeding their service lives in the next five years. The Secretary of the Navy, in coordination with the Chief of Navy Reserve, is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the plan to recapitalize and modernize the Navy Reserve tactical aviation squadrons, specifically the F/A-18A+ models in the Navy Reserve Combat air fleet.

AIRCRAFT PROCUREMENT, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

(INSERT COMPUTER TABLE)

(INSERT PROJECT LEVEL TABLE)

(INSERT PROJECT LEVEL TABLE)

UH-1N REPLACEMENT

The agreement includes \$2,456,000, the same as the budget request, for the UH-1N helicopter replacement program. However, the lack of a settled acquisition strategy remains a concern. The agreement provides the funds requested in order to facilitate the development of a new acquisition strategy. It is recommended that the Secretary of the Air Force consider an acquisition strategy that separates nuclear convoy escort and missile field mission support from other missions performed by the existing UH-1N fleet, which may be satisfied by a less robust and more affordable solution.

SPACE PROCUREMENT, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

(INSERT COMPUTER TABLE)

(INSERT PROJECT LEVEL TABLE)

(Insert 63A-B)

SPACE PROCUREMENT, AIR FORCE

The agreement supports the President's request to create a new Space Procurement, Air Force appropriation account but establishes the period of availability of funds for obligation at three years. Further, the agreement transfers all space-related items requested in the Other Procurement, Air Force appropriation account into the Space Procurement, Air Force appropriation account.

DEFENSE METEOROLOGICAL SATELLITE PROGRAM

The agreement denies the request of the Secretary of the Air Force for relief from direction provided in the explanatory statement accompanying the Department of Defense Appropriations Act, 2015, which required that the Defense Meteorological

Satellite Program (DMSP) be brought to an orderly close during calendar year 2015. Therefore, the recommendation reduces the fiscal year 2016 budget request by \$89,351,000 for the DMSP and by \$120,000,000 for the corresponding Evolved Expendable Launch Vehicle. Further, the recommendation rescinds \$50,000,000 from fiscal year 2015 Missile Procurement, Air Force funds for the DMSP. The agreement recommends that the Secretary of the Air Force focus resources on ensuring that the next generation of weather satellites meets the full spectrum of warfighter and intelligence requirements and work with civil stakeholders to ensure that any other weather coverage gaps are met using appropriate civil or international weather assets.

PROCUREMENT OF AMMUNITION, AIR FORCE

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the

Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

F-16 RADAR UPGRADES

The long-term health of the active electronically scanned array radar industrial base remains a concern. Competition among multiple suppliers is important to reduce costs and improve performance. The Air Force is finalizing a competitive acquisition strategy to address phase one of the North American Aerospace Defense Command/United States Northern Command Joint Urgent Operational Need (JUON) NC-0008. The agreement provides \$40,000,000 to support the phase one competition. The agreement directs the Secretary of Defense, in coordination with the Secretary of the Air Force and the Commander of United States Northern Command, to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that details a competitive acquisition strategy for phase one of the JUON, the plan to address phase two, and the Air Force's radar modernization plan for the entire F-16 fleet.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

The agreement on items addressed by either the House or the Senate is as follows:

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

(INSERT COMPUTER TABLE)

(INSERT PROJECT LEVEL TABLE)

E-8 JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM

The agreement directs the Secretary of the Air Force to submit a report on modifications to the E-8 Joint Surveillance Target Attack Radar System (JSTARS) fleet to the congressional defense committees not later than 30 days after the submission of the fiscal year 2017 budget request. This report shall detail how the Air Force will address global air traffic management mandates, as well as other modifications required to meet warfighter requirements and avoid mission performance degradation due to diminishing manufacturing sources, until the E-8 is replaced by the Next Generation JSTARS system. The report shall include schedules and annual funding requirements for each modification effort. This language replaces the reporting requirements regarding the legacy E-8 fleet under the headings "E-8 JSTARS" in House Report 114-139 and "Joint Surveillance and Target Attack Radar System (JSTARS)" in Senate Report 114-63.

Delays by the Department of Defense in reaching a Milestone A decision on the Next Generation Joint Surveillance Target Attack Radar System (JSTARS) program remain a source of concern. The Secretary of Defense and the Secretary of the Air Force are directed to reassess the acquisition strategy with the goal of shortening the development phase and accelerating the production and delivery of a new system. The Secretary of the Air Force is further directed to brief the congressional defense committees not later than 60 days after the enactment of this Act on the status of requirements definition, technology risk and the strategy for reducing such risk, the acquisition strategy and funding for all phases, and options to accelerate the program relative to the schedule presented with the fiscal year 2016 budget request. This language replaces the direction regarding the Next Generation JSTARS system under the headings "Next Generation JSTARS" in House Report 114-139 and "Joint Surveillance and Target Attack Radar System (JSTARS)" in Senate Report 114-63.

GLOBAL POSITIONING SYSTEM III OPERATIONAL CONTROL SEGMENT

In light of significant delays to the Global Positioning System (GPS) III

Operational Control Segment, the Air Force plan to accelerate GPS III satellite launches would put approximately fourteen satellites on orbit before the ground system is available to operate and integrate the satellites into the positioning, timing, and navigation architecture. Therefore, the Constellation Sustainment Assessment Team is directed to conduct a review, with validation by the Commander of the United States Strategic Command, to determine if the current GPS III satellite launch plan should be adjusted to ensure necessary operational testing on early vehicles has been completed and potential

satellite deficiencies have been discovered before more satellites are launched. This review should be provided to the congressional defense committees not later than 60 days after the enactment of this Act.

SPACE BASED INFRARED SYSTEM SPACE MODERNIZATION INITIATIVE

The agreement directs the Under Secretary of Defense (Acquisition, Technology, and Logistics) to provide an analysis of alternatives for the next generation of the Space Based Infrared System to the congressional defense committees not later than 60 days after the enactment of this Act. Further, the Under Secretary of Defense (Acquisition, Technology, and Logistics) and the Commander of the United States Strategic Command are directed to brief the congressional defense committees on the findings and recommendations of the analysis of alternatives, including the cost evaluation, not later than 30 days after the submission of the analysis of alternatives.

ADVANCED EXTREMELY HIGH FREQUENCY SATELLITE SPACE MODERNIZATION INITIATIVE

The agreement restricts obligation or expenditure of more than \$90,000,000 of Research, Development, Test and Evaluation, Air Force funds for the Advanced Extremely High Frequency Military Satellite Communications Space Modernization Initiative until 30 days after the Under Secretary of Defense (Acquisition, Technology, and Logistics) provides the congressional defense committees with its analysis of alternatives for protected tactical satellite communications services. Further, the Under Secretary of Defense (Acquisition, Technology, and Logistics) and the Commander of the United States Strategic Command are directed to brief the congressional defense

committees on the findings and recommendations of the analysis of alternatives, including the cost evaluation, not later than 30 days after the submission of the analysis of alternatives.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

The agreement on items addressed by either the House or the Senate is as follows:

Insert 78A -

TRUSTED FOUNDRIES

Maintaining a United States-based foundry that supplies trusted microprocessors for the Department of Defense and the Intelligence Community is a concern. It is noted that near-term and long-term plans are being developed by the Department of Defense to address access to microprocessors from trusted sources. The Secretary of Defense is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that includes a list of Department of Defense weapon systems that require trusted microprocessors, a description on how the loss of a United States-based trusted foundry impacts these systems, an identification of costs associated with maintaining an equivalent level of security for the existing systems, a list of the

challenges associated with maintaining and/or creating adequate United States-based trusted foundries versus relying on foreign-based trusted foundries, and the Department's plan to provide secure microprocessors for future weapon systems. This report may be submitted in a classified form if necessary.

MISSILE DEFENSE AGENCY - DIVERT AND ATTITUDE CONTROL SYSTEM AND MULTI-OBJECT KILL VEHICLE

The fiscal year 2016 budget request includes \$11,482,000 for the competitive development of next generation divert and attitude control system (DACS) technology, a reduction of 42 percent from fiscal year 2015. In addition, the fiscal year 2016 budget request initiates funding for the multi-object kill vehicle (MOKV), a program that will likely require next generation DACS technology. It is understood that the Missile Defense Agency (MDA) shares previously expressed concerns regarding the need to ensure access to a competitive DACS industrial base and views the DACS component as critical to making precise trajectory adjustments to position missile defense kill vehicles for a target intercept. Therefore, the agreement recommends an additional \$10,000,000 for competitive DACS technology to support MOKV development, and an additional \$20,000,000 for MOKV technology. It is understood that MDA will support the competitive DACS industrial base in future budget submissions.

MISSILE DEFENSE AGENCY - SM-3 BLOCK IIA INTERCEPTOR AND PROGRAMS INVOLVING INTERNATIONAL PARTNERS

It is recognized that the United States and Japan are cooperatively developing the SM-3 Block IIA missile and are preparing for an initial flight test. The fiscal year 2016

budget request continues to incrementally fund 17 SM-3 Block IIA flight test rounds, at a cost of over \$500,000,000. In an effort to better recognize the role of international partners in Department-wide technology programs, the Under Secretary of Defense (Acquisition, Technology, and Logistics) is directed to provide a briefing to the congressional defense committees on Department of Defense programs involving international partners.

OPERATIONAL TEST AND EVALUATION, DEFENSE

The agreement on items addressed by either the House or the Senate is as follows:

DEFENSE COMMISSARY AGENCY

The agreement affirms the significant and lasting benefits that commissaries provide in support of servicemembers and their families. Commissaries help promote healthy base communities by guaranteeing access to fresh foods, including fruits and vegetables, at low prices to military families. Better nutrition and food choices are the first steps toward improved health outcomes and lower health care costs. Commissaries also help military families stretch their budgets and provide stable employment for servicemembers' families and veterans.

It is understood that the Department of Defense would like to make commissaries more self-sustaining. The agreement supports finding efficiencies to lower the

operational cost of commissaries. The House and Senate Appropriations Committees are willing to review and consider new ways to administrate the commissaries; however, the agreement does not support the proposed funding reduction. The agreement affirms that commissaries must be kept open, affordable, and accessible to military families.

Language in House Report 114-139 directed the Secretary of Defense to defer any changes to the Defense Commissary Agency's (DeCA) second destination transportation funding policy that would increase commissary retail prices until 30 days after the Secretary has submitted a report to the congressional defense committees regarding commissary costs, including the potential efficiencies that can be realized in air transportation contracts. However, prior to House passage of H.R. 2685, the Department of Defense began the transition to a new fresh fruits and vegetables contract throughout the DeCA Pacific Area commissaries. Therefore, in lieu of the direction in House Report 114-139, the Secretary of Defense is directed to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act outlining the current delivery system of commissary benefits in the Pacific Area commissary system, including the anticipated costs related to the transition to a new fresh fruits and vegetables contract throughout the DeCA Pacific Area commissaries; a description of any modifications to the Pacific Area commissary system the Secretary considers appropriate to achieve savings in the delivery of commissary benefits, while still upholding high levels of customer satisfaction and access, providing high quality products, and sustaining discount savings; and the potential efficiencies that can be realized in air transportation contracts and the effect that these efficiencies may have on second destination transportation funding requirements.

NATIONAL DEFENSE SEALIFT FUND

The agreement provides \$474,164,000 for the National Defense Sealift Fund.

TITLE VI - OTHER DEPARTMENT OF DEFENSE PROGRAMS

The agreement provides \$34,392,468,000 in Title VI, Other Department of Defense Programs. The agreement on items addressed by either the House or the Senate is as follows:

REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

Concerns remain regarding the transfer of funds from the In-House Care budget sub-activity to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, the agreement includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care budget sub-activity continues to be designated as a congressional special interest item. Any transfer of funds from the In-House Care budget sub-activity into the Private Sector Care budget sub-activity or any other budget sub-activity requires the Secretary of Defense to follow prior approval reprogramming procedures for operation and maintenance funds.

The Secretary of Defense is directed to provide written notification to the congressional defense committees of cumulative transfers in excess of \$10,000,000 out of the Private Sector Care budget sub-activity not later than fifteen days after such a transfer. Furthermore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds in excess of \$10,000,000, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity groups for fiscal year 2015.

The Assistant Secretary of Defense (Health Affairs) is directed to provide quarterly reports to the congressional defense committees on budget execution data for all of the

Defense Health Program budget activities and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

CARRYOVER

For fiscal year 2016, the agreement recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Assistant Secretary of Defense (Health Affairs) is directed to submit a detailed spending plan for any fiscal year 2015 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$50,000,000 for the peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: bladder cancer, colorectal cancer, immunotherapy, kidney cancer, listeria vaccine for cancer, liver cancer, lymphoma, melanoma and other skin cancers, mesothelioma, neuroblastoma, pancreatic cancer, pediatric brain tumors, and stomach cancer.

The reports directed under this heading in House Report 114-139 and Senate Report 114-63 are still required.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$278,700,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the following areas: acute lung injury, antimicrobial resistance, chronic migraine and posttraumatic headache, congenital heart disease, constrictive bronchiolitis, diabetes, dystonia, emerging infectious diseases, focal segmental glomerulosclerosis, Fragile X syndrome, hepatitis B, hereditary angioedema, hydrocephalus, inflammatory bowel disease, influenza, integrative medicine, interstitial cystitis, lupus, malaria, metals toxicology, mitochondrial disease, nanomaterials for bone regeneration, non-opioid pain management, pancreatitis, pathogen-inactivated dried plasma, polycystic kidney disease, post-traumatic osteoarthritis, psychotropic medications, pulmonary fibrosis, respiratory health, Rett syndrome, rheumatoid arthritis, scleroderma, sleep disorders, tinnitus, tuberculosis, vaccine development for infectious disease, vascular malformations, and women's heart disease. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

ELECTRONIC HEALTH RECORD SYSTEM

Concerns remain with the progress being made by the Departments of Defense and Veterans Affairs to develop fully interoperable electronic health record systems. The ultimate goal of the efforts of both Departments is to have systems that can exchange data

in a meaningful way and be used in a dynamic environment to improve patient care and facilitate smoother transitions for servicemembers from military service to veteran status.

It is noted that the Department of Defense has provided required information regarding resource requirements for prior years and the fiscal year 2016 budget request in a timely, concise, and complete manner. However, for the necessary oversight of this important program, the Program Executive Officer (PEO) for the Defense Healthcare Management Systems Modernization (DHMSM) is directed to provide quarterly reports to the congressional defense committees and the Government Accountability Office on the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. These reports should also include any changes to the deployment timeline, including benchmarks, for full operating capability; any refinements to the cost estimate for full operating capability and the total lifecycle cost of the program; an assurance that the acquisition strategy will comply with the acquisition rules, requirements, guidelines, and systems acquisition management practices of the federal government; the status of the effort to achieve interoperability between the electronic health record systems of the Department of Defense and the Department of Veterans Affairs, including the scope, cost, schedule, mapping to health data standards, and performance benchmarks of the interoperable record; and the progress toward developing, implementing, and fielding the interoperable electronic health record throughout the two Departments' medical facilities. The PEO DHMSM is directed to continue briefing the House and Senate Appropriations Committees on a quarterly basis, coinciding with the report submission. Given that full deployment of the new electronic health record is not scheduled until fiscal year 2022, the Department of Defense is expected to continue working on interim modifications and enhancements to the current system to improve interoperability in the near-term. Additionally, the PEO DHMSM is directed to provide written notification to the House and Senate Appropriations

Committees prior to obligating any contract, or combination of contracts, for electronic health record systems in excess of \$5,000,000.

Additionally, the Director of the Interagency Program Office is directed to continue to provide quarterly briefings on standards development, how those standards are being incorporated by the two Departments, and the progress of interoperability to the House and Senate Appropriations Subcommittees for Defense and Military Construction, Veterans Affairs, and Related Agencies. In an effort to ensure government-wide accountability, the PEO DHMSM, in coordination with the appropriate personnel of the Department of Veterans Affairs, is directed to provide the Federal Chief Information Officer of the United States with monthly updates on progress made by the two Departments to reach interoperability and modernize their respective electronic health records.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate, detailed, and comprehensive classified annex. The Intelligence Community, the Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2016.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

The agreement provides \$514,000,000 for the Central Intelligence Agency Retirement and Disability Fund.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

The agreement provides \$505,206,000, a decrease of \$24,817,000, for the Intelligence Community Management Account.

TITLE VIII - GENERAL PROVISIONS

The agreement incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in the agreement are as follows:

The agreement retains a provision proposed by the House which provides general transfer authority not to exceed \$4,500,000,000. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which identifies tables as Explanation of Project Level Adjustments. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate which provides for the establishment of a baseline for application of reprogramming and transfer authorities for the current fiscal year. The House bill contained a similar provision.

The agreement retains a provision proposed by the Senate which provides for limitations on the use of transfer authority of working capital fund cash balances. The House bill contained a similar provision.

The agreement retains a provision proposed by the House regarding management of civilian personnel of the Department of Defense. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House regarding limitations on the use of funds to purchase anchor and mooring chains. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate to sustain work rates at manufacturing arsenals. The House bill contained no similar provision.

The agreement modifies a provision proposed by the House which prohibits the use of funds to demilitarize or dispose of certain small firearms. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House regarding incentive payments authorized by the Indian Financing Act of 1974. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which provides funding from various appropriations for the Civil Air Patrol Corporation. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate which prohibits funding from being used to establish new Department of Defense Federally Funded Research and Development Centers with certain limitations. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds to disestablish, close, downgrade from host to extension center, or place a Senior Reserve Officers' Training Corps program on probation. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate which eliminates discounts on tobacco products at military exchanges. The House bill contained no similar provision.

The agreement retains a provision proposed by the House regarding mitigation of environmental impacts on Indian lands resulting from Department of Defense activities. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate making permanent the conditions under which contracts for studies, analyses, or consulting services may be

entered into without competition on the basis of an unsolicited proposal. The House bill contained a similar provision.

(RESCISSIONS)

The agreement modifies provisions proposed by the House and the Senate recommending rescissions and provides for the rescission of \$1,768,937,000. The rescissions agreed to are:

The agreement retains a provision proposed by the House restricting procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the Senate placing restrictions on funding for competitively bid space launch services. The House bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides funding to the United Service Organizations and the Red Cross. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate directing that transfers to Small Business Innovation Research and Small Business Technology Transfer programs be taken proportionally. The House bill contained a similar provision.

The agreement retains a provision proposed by the Senate which prohibits funds from being used to modify Fleet Forces Command command and control relationships. The House bill contained no similar provision.

The agreement retains a provision proposed by the Senate regarding funding for the Sexual Assault Prevention and Response program and the Special Victims' Counsel program. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which provides for a waiver of "Buy America" provisions for certain cooperative programs. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate which places restrictions on the use of funds to consolidate or relocate any element of the Air Force Rapid Engineer Deployable Heavy Operational Repair Squadron Engineer. The House bill contained no similar provision.

The agreement retains a provision proposed by the Senate which directs the Secretary of Defense to provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which prohibits funds from being used to separate the National Intelligence Program from the Department of Defense budget. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House which provides a grant to the Fisher House Foundation, Inc. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House related to funding for the Israeli Cooperative Defense programs. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate regarding specific allocation of funds under Shipbuilding and Conversion, Navy. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which reduces funding due to favorable foreign exchange rates. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the Senate that provides for the transfer of funds from any available Department of Navy appropriation to any available Navy ship construction appropriation. The House bill contained no similar provision.

The agreement retains a provision proposed by the House that prohibits changes to the Army Contracting Command-New Jersey without prior notification. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate that prohibits the use of funds to retire or divest RQ-4 Global Hawk aircraft. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds to violate the Child Soldier Prevention Act of 2008. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate which provides that funds appropriated in this Act may be available for the purpose of making remittances and transfers to the Defense Acquisition Workforce Development Fund. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which provides for the purchase of heavy and light armored vehicles up to a limit of \$450,000 per vehicle. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House related to agreements with the Russian Federation pertaining to United States ballistic missile defense systems. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House which provides the Director of National Intelligence with general transfer authority with certain limitations. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House regarding the transfer of detainees from Naval Station Guantanamo Bay, Cuba to the United States. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funding to modify any United States facility, other than the facility at Naval Station Guantanamo Bay, Cuba, to house any individual detained at Naval Station Guantanamo Bay, Cuba. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House regarding the transfer of detainees from Naval Station Guantanamo Bay, Cuba to foreign countries. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used to violate the War Powers Resolution. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate which directs that up to \$1,000,000 from Operation and Maintenance, Navy shall be available for transfer to the John C. Stennis Center for Public Service Development Trust Fund. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits funding from being used in violation of Presidential Memorandum-Federal Fleet Performance, dated May 24, 2011. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate related to funding for Rosoboronexport. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used for the purchase or manufacture of a United States flag unless such flags are treated as covered items under section 2533a(b) of title 10, U.S.C. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides that funds may be used to provide ex gratia payments to local military commanders for damage, personal injury, or death that is related to combat operations in a foreign country. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House that requires the Secretary of Defense to post grant awards on a public website in a searchable format. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House regarding realignment of forces at Lajes Field, Azores, Portugal. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House regarding funding for flight demonstration teams at locations outside the United States. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds by the National Security Agency to target United States persons under authorities granted in the Foreign Intelligence Surveillance Act of 1978. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides additional funding for basic allowance for housing for military personnel. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House that prohibits the use of funds to implement the Arms Trade Treaty until the treaty is ratified by the Senate. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the Senate which restricts the transfer of administrative responsibilities or budgetary resources of any program to another federal agency not financed by this Act. The House bill contained no similar provision.

The agreement modifies a provision proposed by the House related to the transfer of AH-64 Apache helicopters from the Army National Guard to the active Army. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House that limits the availability of funds authorized for counterterrorism support to foreign partners. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House that prohibits introducing armed forces into Iraq in contravention of the War Powers Act. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House that prohibits the use of funds to retire the A-10 fleet. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which provides funds to support Department of Defense activities related to the Digital Accountability and Transparency Act. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House which limits the use of funds for the T-AO(X) program. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House which reduces

Working Capital Fund, Army and Working Capital Fund, Air Force to reflect excess cash
balances. The Senate bill contained no similar provision.

(RESCISSION)

The agreement includes a new provision recommending a rescission. The House and Senate bills contained no similar provisions. The provision provides for the rescission of \$1,037,000,000 from the following program:

No Year Appropriations:

Defense Working Capital Fund, Defense-Wide:

Excess cash balances......\$1,037,000,000.

The agreement modifies a provision proposed by the House which reduces the total amount appropriated to reflect lower than anticipated fuel costs. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House that prohibits the use of funds to retire the KC-10 fleet. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House prohibiting the retirement of EC-130H aircraft. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds for gaming or entertainment that involves nude entertainers. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds for Base Realignment and Closure. The Senate bill contained no similar provision.

TITLE IX – OVERSEAS CONTINGENCY OPERATIONS/ GLOBAL WAR ON TERRORISM

The agreement provides \$58,638,000,000 in Title IX, Overseas Contingency Operations/Global War on Terrorism.

REPORTING REQUIREMENTS

The Secretary of Defense is directed to continue to report incremental contingency operations costs for all named operations in the Central Command Area of Responsibility on a monthly basis in the Cost of War Execution report as required by the Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The Secretary of Defense is directed to continue providing Cost of War reports to the congressional defense committees that include the following information by appropriation account: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations, and cumulative fiscal year disbursements.

In order to meet unanticipated requirements, the Secretary of Defense may need to transfer funds within these appropriation accounts for purposes other than those specified in the explanatory statement. The Secretary of Defense is directed to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriation accounts in this title using authority provided in section 9002 of this Act.

OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM FUNDS EXECUTION REPORTS

The Secretary of Defense is directed to submit a monthly report to the congressional defense committees not later than 30 days after the last day of each month that details commitment, obligation, and expenditure data by sub-activity group for the Afghanistan Security Forces Fund, the Counterterrorism Partnerships Fund, and the Iraq Train and Equip Fund.

SYRIA TRAIN AND EQUIP FUND

The House and the Senate included the Syria Train and Equip Fund in title IX. The Syria Train and Equip Fund was designed to provide assistance, training, equipment, supplies, stipends, construction of training and associated facilities, and sustainment to appropriately vetted elements of the Syrian opposition and other appropriately vetted Syrian groups. Recently, the Secretary of Defense announced the suspension of elements of the Syria Train and Equip program due to significant challenges with its implementation and an inability to meet program goals. Clear expectations for the future of the program, including how requested funding would be spent and how the program aligns with the shifting strategy on the ground in Syria, have yet to be provided. Therefore, the agreement does not recommend funding for the Syria Train and Equip Fund, but it allows the Secretary of Defense to use funds from the Counterterrorism Partnerships Fund for efforts to assist appropriately vetted elements of the Syrian opposition, if the Secretary outlines a detailed and clear plan for the use of such funds and provides such justification to the congressional defense committees in a reprogramming request.

AUTHORIZATION TO USE MILITARY FORCE AGAINST THE ISLAMIC STATE OF IRAQ AND THE LEVANT

The House included a general provision, Section 10001, regarding an authorization to use military force pertaining to the Islamic State of Iraq and the Levant (ISIL). This provision was included as a congressional finding stating that Congress has a constitutional duty to debate and determine whether or not to authorize the use of military force against ISIL. The Senate included a similar provision, Section 9017.

AZOV BATTALION IN UKRAINE

The House included a general provision, Section 10009, prohibiting arms, training, and other assistance to the Azov Battalion in Ukraine. This provision was included due to concerns regarding the Azov Battalion commander's ties to extremism. It is understood that established codified human rights vetting requirements for beneficiaries of assistance from both the Departments of State and Defense would prohibit funding the Azov Battalion from either source if it violates human rights. This language replaces the general provision included in H.R. 2685.

OPERATION FREEDOM'S SENTINEL

The mission of Operation Freedom's Sentinel is to cooperate with allies and partners on the Resolute Support mission and to continue counterterrorism operations against the remnants of al-Qaeda in Afghanistan. The President recently announced that the current troop level of 9,800 will remain in Afghanistan through most of 2016 instead

of the budgeted end strength of approximately 5,500 troops, thereby creating a funding shortfall.

The agreement provides an additional \$1,277,915,000 in Operation and Maintenance, Army; Military Personnel, Army; and Operation and Maintenance, Defense-Wide for the Special Operations Command to be used only for Operation Freedom's Sentinel. The Office of Management and Budget did not submit a formal budget amendment to Congress and informal recommendations provided by the Under Secretary of Defense (Comptroller) were provided too late to fully fund the requirement within budget caps. Further, many of the recommended funding offsets had already been applied to meet the reduced funding levels legislated by the Bipartisan Budget Agreement of 2015 or they were untenable, such as reducing funding for Department of Defense schools. The agreement provides sufficient funding to cover the higher level of effort for the Army and Special Operations Command for the first six months of fiscal year 2016. It also provides additional transfer authority with the recognition that the Secretary of Defense will expeditiously submit a reprogramming action to the congressional defense committees to provide funding for the remainder of the fiscal year.

This funding is a congressional special interest item. The Secretary of Defense is directed to provide a spending plan by sub-activity group to the House and Senate Appropriations Committees not later than 15 days prior to any obligation of funds. This funding may be implemented 15 days after congressional notification unless an objection is received from either the House or the Senate Appropriations Committee.

MILITARY PERSONNEL

The agreement on items addressed by either the House or the Senate is as follows:

NATIONAL GUARD AND RESERVE EQUIPMENT

The agreement provides \$1,000,000,000 for National Guard and Reserve Equipment. Of that amount \$330,000,000 is designated for the Army National Guard, \$330,000,000 for the Air National Guard, \$140,000,000 for the Army Reserve, \$140,000,000 for the Air Force Reserve, \$50,000,000 for the Navy Reserve, and \$10,000,000 for the Marine Corps Reserve.

This funding will allow the reserve components to procure high priority equipment that may be used for combat and domestic response missions. Current reserve component equipping levels are among the highest in recent history and the funding provided by the agreement will help ensure component interoperability and sustained reserve component modernization.

The Secretary of Defense is directed to ensure that the account be executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: Acoustic Hailing Devices, Large Aircraft Infrared Countermeasures, Advanced Targeting Pods, Security and Support Mission Equipment Communications Packages for UH-60 Civil Support Communications, Electromagnetic In-flight Propeller Balance System, Joint Threat Emitter Systems, Data Links in Ground Vehicles, upgrades for First Responder Tactical Radios, Training Systems and Simulators, Multi-Mission Wide Area Sensors, Wireless Mobile Mesh Network Technologies, Personal protection radiation dosimeters, Integrated Facial Protection components for standard issue helmets, Laser Protective Eyewear, HMMWV Ambulances, Small Arms Simulation Training Systems, Crashworthy Auxiliary Fuel Systems, Reactive Skin Decontamination Lotion, Semi-Permanent Humidity Controlled Shelters, Counter Mortar Radar Systems, Active Electronically Scanned Array Radars for F-16, Digital Radar Warning Receivers for F-16 and C-130, and Engine Upgrades for C-130 including Modular Blade Technology.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The agreement on items addressed by either the House or the Senate is as follows:

GENERAL PROVISIONS – THIS TITLE

The agreement for title IX incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in the agreement are as follows:

The agreement modifies a provision proposed by the House which provides for general transfer authority within title IX. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which provides for the procurement of passenger motor vehicles and heavy and light armored vehicles for use by military and civilian employees of the Department of Defense in the United States Central Command area. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate related to the Commanders' Emergency Response Program. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which provides funds for the Office of Security Cooperation in Iraq. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House which provides security assistance to the Government of Jordan. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of the Iraq Train and Equip Fund to procure or transfer man-portable air defense systems. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides assistance and sustainment to the military and national security forces of Ukraine. The Senate bill contained a similar provision.

The agreement includes a new provision related to the replacement of funds for items provided to the Government of Ukraine. The House and Senate bills contained no similar provisions.

The agreement retains a provision proposed by the House which prohibits the use of assistance and sustainment to the military and national security forces of Ukraine funds to procure or transfer man-portable air defense systems. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which provides funds for reimbursement to the Government of Pakistan contingent upon certification by the Secretary of Defense, with concurrence from the Secretary of State, that certain conditions have been met. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides funds to the Department of Defense to improve intelligence, surveillance, and reconnaissance capabilities. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate which prohibits the use of funds to transfer additional C-130 aircraft to Afghanistan until the Department of Defense conducts a review of the country's medium airlift requirements. The House bill contained no similar provision.

(RESCISSION)

The agreement includes a new provision recommending rescissions. The House and Senate bills contained no similar provisions. The provision provides for the rescission of \$400,000,000 from the following program:

2015 Appropriations:

Afghanistan Security Forces Fund:

Program adjustment\$400,000,000.
