

## **Iain Mulholland, Chief Technology Officer, Security, VMware**

Iain Mulholland is VMware's Chief Technology Officer for Security. Iain joined VMware in 2011 to start the product security engineering group. Most recently he led several central engineering functions within VMware's Research & Development organization focused on customer security & trust.

Prior to VMware he held senior leadership positions in several security and privacy early stage technology startups. A 20-year veteran of the software security space, Mulholland was an early member of the Microsoft Trustworthy Computing Group, where he led the Microsoft Security Response Center. Iain is also a member of the U.S. Delegation to the Wassenaar Plenary in Austria in charge of negotiating international cyber security protocols. A former British Army Officer, Mulholland is originally from Belfast, Northern Ireland but now calls Northern California home.
