Dr. Darcy Bullock is a Professor of Civil Engineering at Purdue University and serves as the director of the Joint Transportation Research Program (JTRP). Bullock is a Registered Professional Engineer in Indiana and has 30 years of experience in the industry working closely with vendors, state agencies, USDOT, and colleagues at other universities. Bullock's teaching, research and consulting interests have been in the general area of traffic engineering. He received a B.S. in Civil Engineering from the University of Vermont, and a M.S. and a Ph.D. in Civil Engineering from Carnegie Mellon University. Bullock has served in leadership roles with a variety of professional organizations including the American Society of Civil Engineers (ASCE), the Transportation Research Board (TRB), and the Institute of Transportation Engineers (ITE).

Over the past two decades, Bullock has completed several projects with the Federal Highway Administration, Federal Aviation Administration, National Cooperative Highway Research Program, National Science Foundation, Department of Homeland Security, Houston Airport System (Houston Intercontinental Airport), Kenton County Airport Board (Cincinnati Airport), Volkswagen, and Ford Motor Company, as well as several state and local transportation agencies. The results of those projects are published in over 350 journal articles, conference proceedings, and technical reports, several of which have received national awards from American Society of Civil Engineers (ASCE), Transportation Research Board (TRB) and Institute of Transportation Engineers (ITE). The impact of his research projects and the JTRP program on the state of Indiana has been recognized by the past three Indiana Governors.
