Wade Thomson

Wade Thomson is president of Thomson Prestress in Jackson, Tennessee. Thomson Prestress has been operated by Wade's family since 1959, and he is the third generation to run the company. Thomson Prestress produces PCI-certified precast and prestressed concrete products used in ridge beams, piling, bridge deck panels, and wall panels that go into highways, bridges, and buildings across the Mid-South. Wade also owns Universal Hauling, a heavy haul trucking company, and Omega Concrete, a ready mix concrete company.
